## FIVE BODIES OF VOLCANO DEAD FOUND

Chilean Disturbances on  
Wane as Scenes of Terror  
Abound on All Sides

SANTIAGO (Chile) Jan. 7. (P)—Dispatches from Puerto Montt, based on unconfirmed reports, state that five families, totaling twenty-two persons, are missing in the area over which the eruption of Calbuco has poured lava and ash. Positive information is still scanty owing to disrupted communications.

BUENOS AIRES, Jan. 7. (P)—Five bodies have been recovered from the ruin caused by eruption of the Chilean volcano Calbuco, near Lake Llanquihue. The latest reports from Puerto Montt say that many injured have been taken from the stricken area.

The disturbance, which was the most intense in many years, is subsiding and the population of the countryside is regaining tranquility, although there is death and destruction on all sides. For several days preceding its violent eruption, Calbuco was increasingly active. The climax came late Saturday and continued with unabated fury throughout Sunday. The earth rumblings which accompanied the eruption were equally terrifying to the inhabitants.

All available boats were sent across Lake Llanquihue from Puerto Montt to the west shore, in an attempt to rescue the stricken people and their livestock. The River Pascudo was choked with tree trunks and steam rose from its waters as hot ashes and burning wood fell into it. The molten lava set fire to the forests and thus created an additional menace.

## Rate Hearings on in New York

NEW YORK, Jan. 7. (P)—The Interstate Commerce Commission today began its next to the last series of general hearings on the reasonableness and lawfulness of railroad freight rates in effect all over the country.

The final series of hearings probably will be held in Washington next month, hearings already having taken place in Chicago, San Francisco, Los Angeles, Seattle, Kansas City and Atlanta.

## Habitual Crime Law Sustained

LANSING (Mich.) Jan. 7. (P)—The habitual criminal section of the State Criminal Code was upheld by the State Supreme Court today, when it affirmed the conviction and sentence of Fred Palm, Lansing bootlegger.

The section provides a life sentence for a fourth felony conviction.

## MIDWINTERS GOING—GOING—

The final rush to send copies of The Times' Midwinter Number to all parts of the world forecasts an early end to the phenomenal sales being recorded daily.

## MIDWEST MERCURY DROPS

Three More Deaths Recorded as Temperature Reads from 10 to 24 Degr. Below Zero

CHICAGO, Jan. 7. (Exclusive)—Intense cold prevailed over the Middle West today and tonight. Temperatures ranged between zero and 10 below in the Chicago area and from 10 to 24 below in cities to the northwest. Records for this winter (tumbled in the area embraced by the cold wave and acute distress was experienced among the poor of midwestern cities as in Chicago. Three deaths from exposure are reported here.

The general prediction promises some relief for tomorrow. Barometric readings indicate that the cold wave is moving southeast with the rigidity gradually diminishing.

## THEATER BOARD TO BE FORMED

New York Stage Interests  
Meet to Consider How to  
Meet Crisis

NEW YORK, Jan. 7. (P)—Theatrical producers, actors and playwrights came together in New York today and decided to present a united front to what are generally described as the worst conditions the American theater ever has experienced.

The outcome, they hope, will be a fifteen-man "Judge Landis" of the theater, to be composed of representatives of all three groups and to be known as the American Theater Board. The board, according to present plans, will have powers corresponding somewhat to those of the high commissioner of baseball.

The difference is that no one member will be exploited above the others. There will be no permanent chairman.

At the suggestion, it was said, of William A. Brady—although Mr. Brady, conforming to the idea of non-exploitation of individuals, would not admit it—the representatives of the Actors' Equity Association, the Dramatists' Guild of the Authors' League of America, and the Organized Legitimate Theatrical Managers' Association met this afternoon and went through the preliminaries of forming the American Theater Board. It was an executive session.

They formed a subcommittee of representatives of each of the three factions to draw up a constitution and by-laws for the board, which will be submitted to the members of the three organizations for their approval.

Every phase of the theater problem—from crowded traffic conditions on Broadway to high cost of transportation for road companies—was discussed, it was said.

## Oil Man Flies to Reno With Bride Elect and Band

RENO, (Nev.) Jan. 7. (P)—After a flight from the coast in a specially chartered Western Air Express trimotor plane, George A. Henshaw, Jr., Texas oil millionaire, and Miss Catherine Clay Pullan, San Francisco, took out a license to wed here late today.

Included in the plane's passenger list was a fourteen-piece jazz band which furnished music on the trip over the Sierras and which, hotel attaches said, would undoubtedly be pressed into service for the wedding.

The couple had a lavish dinner at the Riverside Hotel this evening which was attended by the members of the party.

## VOTE NEARS ON TREATY

Discussion May  
End Today

Compromise on Interpretive  
Resolution Expected to

Reed Ready to Accept Plan  
to Put Senate Views  
Before Powers

WASHINGTON, Jan. 7. (P)—Early ratification of the Kellogg antiwar treaty appeared as a possibility tonight after a day of conferences had brought an agreement nearer on the sole dispute in the treaty discussion—whether an interpretation of America's rights under the pact is necessary.

The negotiations had reached such a stage late today that Senator Reed of New Hampshire, the author of the interpretive resolution which has been opposed by President Coolidge, announced in the Senate that an understanding by tomorrow seems likely.

The tentative agreement calls for a report by the Foreign Relations Committee stating its interpretation of American rights under the treaty and the transmission of this report to the other powers.

READY TO ACCEPT  
Senator Reed, Democrat, Missouri, outstanding opponent of the pact, and others fighting for the interpretive resolution are ready to accept this proposition which would place before all the signatory nations the views of the Senate foreign affairs leaders on the treaty.

Chairman Borah of the committee, who is leading the fight for the pact, insisted tonight that the proposed agreement is "by no means certain yet." The sentiment of other administration leaders is awaited before a definite decision on the undertaking can be announced.

There were definite indications from other treaty proponents, including some of the Democratic spokesmen, that such a proposal would not be opposed by them. The Democrats generally have sided with Chairman Borah in his fight for ratification of the treaty without reservation or an accompanying resolution.

TERMS OF UNDERSTANDING  
Under the terms of the present understanding the committee's interpretive report would be placed before the Senate and referred to the State department with the request that it be sent to the other powers along with the Kellogg pact.

The report would state that this country does not consider that the treaty infringes upon the right of America to defend herself or territories, or embarrases in any way her rights along with the Monroe Doctrine or that it involves this government in any obligation to enforce the treaty. All of these views have been expressed by Borah in Senate debate. The report merely would constitute a record of these pronouncements.

STATUS OF DEBATE  
Should the agreement finally be entered into by Senator Borah and other treaty proponents an immediate vote on the treaty is believed possible. The debate has reached the stage where only Senator Reed of the opposition remains on the list of those desiring to speak. It is possible he may not speak if the understanding is consummated.

While the cloakroom negotiations were proceeding today, debate on the treaty was held off until a late hour. Senator Bruce, Democrat, Maryland, took the floor to pronounce his benediction on the pact and what he considered as its potency.

The opposition to the pact was centered entirely around the fight for the adoption of the interpretive resolution of Senator Reed and an agreement on a compromise of this is regarded as certain to pave the way for an almost unanimous ratification of the pact.

## FAIR FOUND DEAD

DENVEN, Jan. 7. (P)—Miss Anna Aho, 25 years of age, and George W. Dutton, 20, missing since Friday night, today were found dead in Dutton's automobile in the rear of the residence where he lived. Police said they were victims of carbon monoxide poisoning.

## Will Rogers Remarks:

NEW YORK, Jan. 7. (To the Editor of The Times): Say, it began to look like we would have to shoot these airplane endurance guys to get 'em to come down. They beat all airship records and were going after the record the Arizona Senator talking against Boulder dam made.

When motors function that long how could there be any safer transportation in the world than a three-motored ship with a good pilot.

I see where Mr. Coolidge reported to Mr. Hoover about how things were on his trip to Georgia.

Yours,  
WILL ROGERS.

## QUESTION MARK ENDS DASH AFTER 150-HOUR PERIOD

Tired but Happy Crew Piles Out  
of Record Plane After Motors  
Quit and Force Long Glide

BY BILL HENRY

The Question Mark has answered her own query. The "Mark" stands at 150 hours, 40 minutes, 14 seconds. This is a new world's duration record for continuous flight, is two and one-half times as great as any previous record set by an airplane, and exceeds by a day and a half the longest sustained flight by a balloon. The crew, consisting of Maj. Carl Spatz, Capt. Ira Baker, Lieut. H. A. Halverson, Lieut. E. R. Quesada and Staff Sergeant Roy Howe, were in the air for six full days and nights and well into the seventh day, and during that time they flew a distance estimated to be somewhere between 10,500 and 11,000 miles, or nearly half way round the earth. They made their flight under unexpectedly difficult conditions, encountering rough weather during almost the entire period of the flight, being forced to abandon their scheduled route completely because of fog and otherwise putting up with troubles that would have brought a less determined and resourceful party to earth in much less time.

The plane's descent to earth at the Los Angeles Metropolitan Airport at 2:57 o'clock yesterday afternoon was as sudden and unexpected as a bolt of lightning on a clear day. It came almost without warning just when, to those on the ground, conditions seemed most favorable than at any time during the flight.

Motor trouble, which had threatened to bring them down on Saturday night, had been cleared up to a degree. Clouds, fog and threats of rain which had harassed and pursued the huge trimotored Fokker for days had given way to gentle breezes and a smiling sun. It looked as though the worst was over. And then it happened.

## CREW GIVES DOWN STORY

Continued Fog  
Unexpected

Heavy Clothes and Blankets  
Sacrificed, Making Cold  
Chief Hardship

Anxious Hours Spent Over  
Imperial Valley Fighting  
Heavy Down Drafts

Newspaper men were allowed last night to ask questions of the officers of the Question Mark just before they retired for a well-earned rest. Naturally enough, most of the questions were answered by Maj. Spatz, the commanding officer, and Capt. Baker, the chief pilot, while Lieut. Halverson, whose cold had left him rather deaf, and Lieut. Quesada chimed in occasionally.

Following are the highlights of the questions answered by the officers in as unobtrusive an off-hand way as it is possible to put them.

## REAL TEST MADE BY ROUGH WEATHER

BY MAJ. SPATZ  
We have demonstrated the fact that refueling is entirely practicable commercially. The only difference in commercial refueling will be the use of a longer hose and probably a more complete apparatus for doing the job. I found that it was possible at times to let go of the hose entirely and the even work of the two pilots maintained the connection until the operation had been completed.

I don't think that the weather that we encountered was particularly bad, although the continued rain was unexpected. We certainly hit a streak of rough weather. In any event, if we had had better weather, I don't think it would have been much of a test.

As it was, we tried and successfully completed our refueling under pretty nearly every kind of conditions. Every time you moved and the ship you bumped one of the other men. Nobody got more than four hours of sleep at a time and, all in all, conditions were pretty trying on the nerves. I want to say that never once did any man give any evidence of buckling under the strain. Every time we bumped, both bumper and bummer managed to exhibit a smile, and it wasn't forced. If anybody thought of something funny he wrote it on a slip of paper and showed it to everybody else. I wouldn't have believed it possible that five men could stay cooped up together under such conditions for a week.

One point on which I want to comment is on the morale of the crew. We had very cramped quarters and rather trying conditions. Every time you moved and the ship you bumped one of the other men. Nobody got more than four hours of sleep at a time and, all in all, conditions were pretty trying on the nerves. I want to say that never once did any man give any evidence of buckling under the strain. Every time we bumped, both bumper and bummer managed to exhibit a smile, and it wasn't forced. If anybody thought of something funny he wrote it on a slip of paper and showed it to everybody else. I wouldn't have believed it possible that five men could stay cooped up together under such conditions for a week.

No sooner had Capt. Baker taxied the plane around to the hangar than the ground crews swarmed out to greet the plane.

THEIR LOOKS TOLD  
Shortly after noon Lieut. Odan Moon went up for the early afternoon refueling. Lieut. Quesada, at the controls of the Question Mark, turned them over to Capt. Ira Baker, the chief pilot, whose practiced and steady hand had managed her to her unprecedented series of refueling operations under the most hazardous conditions, both night and day.

Securely had Baker taken the controls when the left engine, which had been causing most of the worry, coughed and spluttered, with fueling in his head. Baker, with Lieut. Halverson at his side, saw the hand on the tachometer slowly begin to drop from 1500 revolutions per minute to 1000, then 500, then 200, then 100, then 50, then 20, then 10, then 5, then 2, then 1, then 0.

Meanwhile Lieut. Moon in the interrogation point, as the hangar is called, was in a position and began to pour gas down the hose. The more gas the great plane took on board, the more she coughed and spluttered, until she was on the verge of stopping. The engine was finally restarted, but when it turned with the wind she dropped quickly.

Perhaps they could fix it. Sergeant Hooce, the indefatigable handy man, thought it was worth a try. So they cut the switch, opened up the other two engines and out on the six-inch catwalk, slippery with oil, cautiously scrambled the veteran mechanic to see what the trouble was and try to remedy it.

A brief diagnosis. A and shake of the head. A scramble back to the comparative safety of the cabin and it was all over. No need to discuss it. They were through. The right engine began to show the same symptoms as the left.

Maj. Spatz gave the signal to Capt. Baker and he "dumped" part of the precious load of fuel out into the air, backed off on the engines and started on a long slow glide to the earth they had left so hesitantly nearly a week before.

Capt. Baker, anxious above all things to have no accident in landing to mar their wonderfully successful flight, cut the switch on the right engine and with only the center engine running, glided slowly down to land at almost exactly the identical spot from which they had taken off at 7:58 a.m. on New Year's Day.

No sooner had Capt. Baker taxied the plane around to the hangar than the ground crews swarmed out to greet the plane.

## NONSTOP GLOBE HOP NEXT

Admiral Moffatt Says Question Mark's Triumph  
Demonstrates Feasibility of World Flight

NEW YORK, Jan. 7. (P)—Rear-Admiral William A. Moffatt, chief of the Bureau of Aeronautics of the United States Navy, commenting today on the 150-hour flight of the army plane Question Mark, visualized the day when a nonstop flight around the world will be made.

"After this test, so ambitious and so prolonged engagement, I emphasize the tremendous potential value of merchant craft fitted with flight decks and operating ordinary commercial planes as fuel carriers in time of national emergency."

"After this test so ambitious an experiment as a nonstop flight around the globe is now brought well within the realm of possibility. Motors, ship and men have proved that they are capable of it. In this flight the replenishment of fuel tanks was achieved in a fashion that was entirely practicable and even simple. There is no reason to doubt that such refueling could be arranged from a chain of stations stretched around the globe, as well as it was arranged from a single station in Los Angeles."

"We know, from the flights of Lindbergh, Chamberlain and Byrd that an airplane can go 4000 miles

He was quoted as saying that the press would receive no verbal information respecting government decisions, which will be published in the Official Royal Gazette. He will conduct the affairs of his office

**HUNT QUITTS RIVER BOARD**

PHOENIX, Jan. 7. (P)—With an explanatory note accompanying it, the resignation of former Gov. Hunt as a member of the Arizona Colorado River Commission today was forwarded to Gov. Phillips.

In the note attached to the formal resignation, ex-Gov. Hunt points out that the law in so far as members of the commission appointed by the Legislature are concerned, is clear—that they are to serve to the end of their commissions, March 4, 1929.

He states, however, that there is some confusion as to the status of himself and his appointees on the commission under the new administration, and that his resignation is dictated by a belief that the commission should not attempt to function except with the wholehearted co-operation and approval of the new chief executive.

The former Governor offers his services to Gov. Phillips if at any time in the future he may be of service in helping "to safeguard the rights of Arizona."

Alexander of Serbia and Queen Draga as well as a number of Cabinet Ministers. These assassinations caused England to break relations with Serbia at the time.

**PRESS RESTRICTED**

The advices stated that no concealment had been made of the fact that these two stern soldiers would use Jugo-Slavia's army, one of the largest and best disciplined and trained in the Balkans, as the chief instrument for representing any revolutionary movement in Croatia. Hadjitch also has been made Minister of the Interior, which will give him broad latitude in dealing with internal affairs.

Because of newly introduced restriction of the press no Belgrade newspaper today contained any coherent and definite account of the events preceding King Alexander's action in summarily closing Parliament, in rescinding the constitution of 1921, in suppressing municipal councils and dissolving political societies formed on a racial basis and in vesting complete executive and administrative authorities in the crown.

**CROWDS PARADE STREETS**

At Zagreb, headquarters of the Croat home-rule movement, crowds today paraded the streets shouting "Long live the King."

Advices received here stated that Vlado Matichuk, leader of the Croat peasant party, said he was perfectly satisfied with the change, since the Croats believed that the old constitution had long been dead.

On all sides there have been heard expressions of hope that the King's Cabinet will be able to clean the Augean Stables of politics and prepare the ground for a permanent settlement of the racial rivalries which have hitherto thwarted efforts to mold a cohesive Jugo-Slavian state.

**Statement Puts Six Months as Recovery Limit**

LONDON, Jan. 7. (P)—A veil of silence was drawn over both camps in the Salvation Army controversy today on the eve of the meeting of the high council which is to decide whether Gen. Bramwell Booth is to continue as commander-in-chief of the organization.

A bulletin issued by Dr. John Weir, physician to the Prince of Wales, and Dr. Ernest Wardlaw Milne, regular adviser to the general, said that the general's mental capacity had been unimpaired by his long illness and that he would be ready to resume his work in six months.

The medical pronouncement also stated that the commander was "well able to give decisions and advice on important matters." This was recognized by both sides as a strong weapon for the adherents of the general and one of the officials at International headquarters said tonight:

"I shall be the most surprised man in the army if Gen. Booth is not adjudged fit to continue his leadership."

The medical certificate reveals, nevertheless, that Bramwell Booth is too ill to attend the council meeting at Sunbury-on-Thames with safety.

It is stated officially at international headquarters that the leader will send a message to the council, but there is no hint as to its import. He will be kept in touch with the proceedings by his wife and his daughter, Catherine.

It is learned also that Commander Evangeline Booth, the general's sister and leader of the element which seeks reform in the army constitution, intends to address the council. She is expected to emphasize that there is no desire on the part of her faction to weaken in any way the international solidarity of the army.

GENEVA, Jan. 7. (AP)—Edith Root, American statesman, has notified the League of Nations of his acceptance of membership on a committee of jurists appointed to revise the statutes of the World Court.

The proposal for revision which emanated from the French delegation was adopted at the last assembly of the League with the idea that a new statute might be framed which would facilitate American adhesion to the court.

The provision that unanimity on the Council would be necessary before advisory opinions could be requested of the court would solve the difficulty arising from reservations which the United States has imposed as a condition of membership.

Witness in "Powwow" Doctor's Murder Shouts Out Words on Which Prosecutor Remained Silent

YORK (Pa.) Jan. 7. (AP)—Efforts of the prosecution to keep the witchcraft angle out of the trial of John H. Blymyer, 33-year-old "powwow" doctor accused of slaying another "powwow" practitioner, Nelson D. Rehmyer, went for naught today when one of the commonwealth witnesses blurted out: "Blymyer told me he got the witch."

The injection of the remark came at the end of procedure of the selection of a jury. Dist. Atty. Herrmann specifically eliminated any reference to witchcraft in his address to the jury. He gave robbery as the motive for the murder in answer to a question of the court.

Blymyer's trial was opened separately today following his indictment and that of his two asserted accomplices, Wilbert M. G. Hess, 18, and John Curry, 14, for the killing of Rehmyer. At the time of their arrest an asserted confession made by Hess attributed the slaying to the attempt of the trio to procure a lock of Rehmyer's hair in order to break a "spell" which Rehmyer was supposed to have cast over the Hess family.

Hess's own brother, Clayton G. Hess, called as a commonwealth witness, told the jury today he had taken Blymyer, his brother, and a boy, identified as Curry, to a spot near the home of Rehmyer on the night of the slaying, November 27, last, and on the night of the November 28 Blymyer came in to him and asked to be taken there again.

"He said he wanted to see if the house was burned down, and if it wasn't, he wanted to burn it down," Hess testified. Herrmann had explained in his opening address that after Rehmyer was beaten and strangled with a piece of clothes

Utilities Companies Buying Own Goods Aimed At

PORTLAND (Or.) Jan. 7. (AP)—Formation of the "Telephone Investigation League of America" was accomplished at a meeting of representatives of Pacific Coast cities here today, and a decision was reached under which Federal legislation will be sought with the end in view of putting telephone companies under the provisions of the antitrust act. Such legislation will be asked of Congress at once.

City Commissioner Mann of Portland was elected president of the league. City Attorney O'Toole of San Francisco was elected first vice-president for California. Other officers are: Thomas Kennedy, corporation counsel for Seattle, first vice-president of Washington; E. K. Murray, corporation counsel of Tacoma, second vice-president; for Washington; City Attorney Stephens of Los Angeles, second vice-president for California. Vice-presidents for Idaho, Nevada and Utah will be selected later.

**CAPITAL VISIT PLANNED**  
A resolution introduced some time ago by Senator Johnson of California, providing for a Senate investigation of the Pacific Telephone and Telegraph Company will be re-drafted by the executive committee of fifteen of the league, and a delegation will be sent to Washington, D. C. to work for the passage of the act.

While Senate investigation of the Pacific Telephone and Telegraph Company is favored by the league, it is declared that this should be but a step toward corrective legislation for the ill of which the cities of the Pacific Coast are suffering. The measure the league has in mind would require public-utility companies which manufacture their own instruments to capitalize those instruments at a price not exceeding the cost of production, plus a fair warehouse charge. This is aimed at what was declared by several speakers to be gross overcharging for material by the Western Electric Company, owned by the American Telephone and Telegraph Company, to the telephone company.

**BILL TO BE DRAFTED**  
Enlarging of the scope of the Clayton antitrust act to include operations of the telephone company was suggested by speakers, who demanded also that unearned increases in rates be listed as earnings; that unused portions of the depreciation reserve be treated as a trust fund for the customer, and that other changes in the practices of the company be required.

Dion H. Holm, rate attorney, San Francisco; Thomas Kennedy, corporation counsel, Seattle, and City Attorney Grant, Portland, were named on a committee to draft the bill that will be presented to Congress in lieu of the Johnson resolution.

John H. Carroll, president of the City Council, Seattle; City Attorney Grant and Mr. Holm were named to frame a best plan for the league by which finances may be raised to carry on the work.

# HIGH COMPRESSION ENGINE REQUIRE THIS NEW GASOLINE AND IT REMOVES CARBON

If you drive a new car... seven chances out of ten... it has a high compression engine. To get maximum performance, ordinary gasoline will not do. You must use Blu-Green, the gasoline that is especially refined and treated with a patented formula for high-compression engines. It gives pep and power without burning the valves.

Motor experts agree that the sensitive high-compression engine must be maintained free from carbon. It costs money to remove carbon mechanically, but you can do it FREE by using Blu-Green... the only gasoline that is guaranteed to remove carbon... Blu-Green is harmless for motors and motor users, too.

**GROVE'S BROMO QUININE**  
LAXATIVE TABLETS

**Pretty odors can't help a cold**  
Nancy was ill at home with a cold; so Walter sent her flowers. Being a well-informed young man, he didn't expect the florist's blooms to correct her physical distress, much as they might help her mentally.  
Yet some people pour things on their handkerchiefs; smell them, and wonder why the cold hangs on. Imagine treating what has been termed "the chief threat to life and business," with a pretty odor! How can that possibly clean the digestive tract? which all doctors agree should be the first precaution.

It is no easier to sniff a fragrance than to take the tiny tablets of GROVE'S BROMO QUININE. Yet how powerful they are against colds! Mildly laxative, they quickly rid the system of accumulated poisons. Then they tone and build up the body's defenses. Knowing these benefits from experience, millions take GROVE'S BROMO QUININE after every exposure, and whenever warning symptoms appear.  
Thus they frequently side-step the cold entirely, or throw it off quickly... When you want the leading remedy, which treats the cause and not the symptoms, emphasize GROVE'S, insulating for GROVE'S BROMO QUININE. Price 30c.

## EX FIGHT LOST BY DEMOCRATS

Refund Practice Raised in House

Causing Battle Passed and Sent to Senate

Replies to Charges Made by Garner

WASHINGTON, Jan. 7. (AP)—Democrats today lost a fight to secure all tax refunds in excess of \$1,000 to be passed upon by joint Congressional Committee. Internal revenue legislation before an appropriation could be for their payment.  
For an extended debate on an amendment to a deficiency supply bill, which carries \$75,000,000 to the House by a vote of 188 to 160, to be passed upon by the joint Congressional Committee. The House passed the bill to the Senate.

**DEFICIENCY BILL**  
The measure is the first deficiency bill of the present session, and provides a total appropriation of \$80,000,000 to meet emergency needs of the government for the current fiscal year. Representative Byrnes of Tennessee, chairman of the House Appropriations Committee, offered an amendment which was supported almost unanimously by the House. The amendment provided that the House should not participate in the voting on the bill. Representative Garner of Texas, chairman of the Senate Finance Committee, directed an attack at a man, directed an attack at the State Steel Corporation of \$100,000 by the payment of the

**PRIZES OFFERED IN "GAS" WAR**  
Cigarettes and Lubricating Oil Given Free in Portland to Auto Owners

PORTLAND (Or.) Jan. 7. (P)—Portland's retail gasoline trade has assumed all the characteristics of the distribution of prize packages. The latest concession in a price-cutting war that has brought gasoline down to 15¢ cents a gallon in many stations is offering five gallons of gasoline free with every six quarts of lubricating oil.

Other dealers, charging from 17 to 30 cents, offer a package of cigarettes free with five gallons of gasoline.

**MELTON'S ANSWER**  
While the debate on this and other tax refund matters was taking place in the House, it was announced at the Treasury that the steel company's claim had been paid.

The statement of Secretary Mellon was in the nature of a reply to a charge made by Garner that the tax refund of the Treasury had made the Secretary "the greatest Santa Claus the country has ever seen."

The Secretary said he had no hand in making tax refund settlements, but that that work was delegated by law to the Bureau of Internal Revenue.

**Hoover Library Head Succumbs**  
PALO ALTO, Jan. 7. (P)—Dr. Frank Alfred Golder, director of the Hoover war library at Stanford University, died today. He was instrumental in bringing to the library information not contained in other libraries in the world.

Born in Russia in 1877, Dr. Golder came to America, graduated from Harvard in 1903, served with the American Relief Administration under Hoover in Europe following the war and collected documents for the Hoover library.

He came to Stanford in 1921, and in 1924 became a director of the library.

**WILKES BANKRUPTCY HEARING POSTPONED**  
SAN FRANCISCO, Jan. 7. (Exclusive)—Hearing in bankruptcy court of the claims of creditors of Alfred G. Wilkes, former Los Angeles and San Francisco theater owner, was continued today to permit the United States government more time to substantiate its claim to an asserted unpaid income-tax bill of 1923. T. J. Sheridan, referee in bankruptcy, in commenting on the action, declared if the government can prove its contention, there may be little if anything left for other creditors. Wilkes scheduled liabilities of \$900,897 and assets at \$2358.

**MAIN SUFFERING WAS FROM COLD**

BY CAPT. IRA EAKER

We made contact something like thirty-six times during the flight, and, despite rough weather, I feel that the refueling process is so easy and so simple that there is no reason why any two pilots who are what I call good pilots should have any difficulty in making and maintaining contact. Of course, there were times when I don't suppose there was more than half a dozen clear feet of air between our propeller and the wheels of the refueling ship.

Our main trouble was with the cold. We had taken out the electric heater in order to make room for the big gas tank in the cabin and we were not dressed for anything like the cold weather we encountered. We didn't take those big fur-lined flying suits because they were too bulky and too heavy and we didn't want to load the plane down with blankets, either, and as a result, after it got cold the last three or four nights we weren't able to sleep much.

What the flight proved to me was that you're more likely to be forced down by mechanical difficulties than by fatigue or anything like that. I really felt better yesterday and today than I did at any time during the flight.

**TOUGHEST PERIOD OF FLIGHT INLAND**

BY LIEUT. H. A. HALVORSEN

I think the toughest period of our flight was when we were forced off our regular course and had to go to Imperial Valley. It was awfully rough going across the mountains and we encountered some of the worst down draughts of air I've ever run across while we were in the valley.

That night was certainly like a nightmare, struggling with the heavy ship against those down currents and realizing that if we had

**WAY OF JOB-SEEKER HARD**  
Political Suppliants Must Run Gauntlet of Buffers to Reach Hoover's Ear

WASHINGTON, Jan. 7. (P)—The prospective office seeker will have to run a virtual gauntlet of secretaries, clerks and aides to reach the ear of President-elect Hoover in the temporary headquarters which he established today at the Hotel Mayflower.

A suite of twelve rooms, thrown together by a partition across an intervening corridor, make up the headquarters. At the end of the suite is the private sanctum of Mr. Hoover, where a cosy glow from an artificial hearth lends a home-like atmosphere.

The prospective applicant for a governmental post will have to be interviewed first by an aide in an outer room. Then he will be taken into an office, if his plea for admittance is successful, presided over by George Akerson, the President-elect's secretary, and Lawrence

to land down there it meant that our while flight had been wasted. On top of that was the possibility of losing the plane through a bad landing on unfamiliar territory down there. We were all pretty well tired out and exhausted when we left Imperial, and I think that was probably the lowest point in our morale.

**FUEL DANGEROUSLY LOW SEVERAL TIMES**

BY LIEUT. QUESADA

Flying on a mission like this is a great kick and I wish that the more had been able to hold up under the strain, as we were all really feeling better as we went along. It was pretty cold up there and I found that it was a lot easier to sleep in the daytime when the sun was out than at night. Boy, those meals tasted good. Ice cream with every meal.

Don't let anybody say we didn't get close at times. I saw Maj. Spatz have to duck once to keep from getting hit on the head by the tailskid of the other plane. And we had some close calls on fuel. Several times we had less than an hour's supply left.

**COOLIDGES LAUNCH SAILOR-BOOK DRIVE**

WASHINGTON, Jan. 7. (P)—President and Mrs. Coolidge today inaugurated the campaign of the American Merchant Marine Library Association for books to be distributed to sailors at sea by dropping a volume each into one of the organization's book-deposit boxes.

The box was a duplicate of many others which are to be placed at much-frequented spots in cities throughout the country to receive books and magazines.

Boyd is a close personal friend of Mr. Hoover, and served as American observer on the Reparations Commission.

Later in the day Senators Burton and Fess of Ohio conferred with Mr. Hoover and tomorrow morning the President-elect is to settle the nature of the inauguration plans when he confers with Col. U. S. Grant III, chairman of the inauguration committee. Mr. Hoover will insist on a simple ceremony, similar to that four years ago when President Coolidge was inaugurated.

Senator Borah is expected to confer with Mr. Hoover later in the week after he has disposed of the Kellogg treaty debate in the Senate. All the Senate and House leaders now are convinced that there will be a special session early in April for the purpose of revising tariff schedules and passing a farm-relief bill satisfactory to the new President.

Representative Tilson, House majority leader, who conferred with Mr. Hoover, has taken that position from the start, and after he left the conference with Mr. Hoover most of the Senate and House leaders admitted that there is no chance to do this work at the short session.

Senator Moses, however, after his call at headquarters, declared that this Congress will accomplish a great deal toward the solution of the farm question if it will get down to work, and Senator Edge expressed a similar view.

After his long day of conferences Mr. Hoover went over the present legislative session and the future plans with Vice-President-elect Curtis of Kansas, who was a dinner guest at the Hoover home tonight.

Selection of Mrs. Alvin T. Hart, vice-chairman of the Republican National Committee, for a Cabinet post was urged on Mr. Hoover by Senator Rackett of Kentucky.

# FRESH AND RELAXED AT THE JOURNEY'S END

ONE of the fine things about driving the new Ford is the way it takes you over the miles without fuss or fatigue.

Mentally you are at ease because you are sure of the mechanical performance of the car. No matter how long the trip, or rough or devious the roadway, you know it will bring you safely, quickly to the journey's end.

Through thickest traffic, up steepest hills, along the open road, you will drive with security and confidence because the new Ford is so alert and capable and so easy to operate and control.

## Ease of control adds to comfort of driving

The steering wheel answers to the touch of a finger. Gears shift smoothly and silently. Brakes take hold quickly and firmly even on slippery pavements.

Unusual acceleration, speed and power are especially appreciated in emergencies. A space little longer than the car itself is all you need for parking.

These features simplify the mechanics of driving and, together with reliability, add a great deal to the mental comfort of motoring.

Physically, too, you will feel fresh and relaxed in the new Ford because it is such a roomy, easy-riding car.

The restfully tilted seats are made generously wide and are deeply cushioned, with coil springs of straight and hour-glass type.

The backs are carefully designed to conform to the curves of the body.

Perhaps the most outstanding feature of the new Ford is found in its riding comfort. Somehow it seems to just glide along, as if every road were a good road. The rough spots are there, just as they have always been, but you do not feel them. It is almost as if a giant hand had smoothed the way before you. Even bad stretches may be taken at a reasonably fast pace without hard jolts or bumps or the exaggerated bouncing which is the cause of most motoring fatigue.

One reason, of course, is the use of four

The Fordor Sedan is a particularly good family car not only because of its comfort, safety and beauty, but also because of its low first cost and low cost of operation and up-keep. Finished in a choice of colors—an unusual feature in a low-price car.

Houdaille hydraulic shock absorbers—two in the front and two in the rear.

Of even greater importance, however, are the low center of gravity, the carefully planned balance of the car, and the many advantages of the transverse or crosswise springs.

## Special Ford springs soften force of road impacts

These springs rest on their flexible ends with the heavy center part uppermost. Thus the very weight of the springs receives the benefit of spring action instead of hanging below as dead weight and increasing the hammer-like blows of road impacts.

Another element in decreasing unsprung weight (the weight carried below the flexible ends of the springs) is the construction of the front axle and rear axle housing. Through the use of fine steel and electric welding, they are made of exceptional strength, yet kept comparatively light in weight.

Another feature of the new Ford is the Triplex shatter-proof glass windshield. This is so made that the glass will not shatter or fly under the hardest impact. It is an important safety factor in these days of heavy traffic.

All of these factors combine to reduce or absorb the force of every unevenness in the road before it reaches the frame, chassis and body of the car. This means more comfort for you personally and also contributes to better performance and longer life for every mechanical part.

INFANT DIES  
AFTER BEATINGSailor Held Following  
Baby's DeathClaims Intoxication as  
DefenseChild's Mother Tell of  
Quarrel With Jackie

SAN DIEGO, Jan. 7.—Lola Patricia Campbell, 3 months of age, is dead today, asserted victim of a brutal beating she received last night as she lay in her crib at 1452 Sixth street.

As the infant died in the County Hospital this morning, naval patrol authorities were arresting W. G. Hipple, 30 years of age, a sailor attached to the U.S.S. McDermott, on suspicion of murder.

Mrs. Marjorie Campbell, mother of the dead infant, and of two other minor children, Chester, 2 years of age, and Emily, 3, is in a state of collapse, police report.

The tragedy centered over the little group today as the aftermath of a day spent in the County Hospital, in which Hipple admitted to police that he became intoxicated and remembered none of the incidents of which he is accused.

"I was intoxicated, but to the best of my knowledge I did not touch any of the children," Hipple said briefly today while being questioned by Captain of Detectives Paul Hayes, the officer reported.

When notified of her daughter's death at her home today, Mrs. Campbell collapsed and cried continually, "My baby is gone." She was revived later and taken to County police headquarters for questioning. The asserted that the first came to the attention of authorities last night when George Sigel, 1452 Sixth street reported the incident to police.

Police Surgeon Paul B. Brut, accompanied by detectives and Chief Petty Officer Elmer Beard of the naval patrol hurried to the home. The little girl's face was a mass of bruises, police said. Her lip was cut and a large bruise was visible on the back of her head, according to officers. The seriousness of her condition was at once apparent to Dr. Brut, who after administering first aid, advised that the child be removed to a hospital.

Although Emily Campbell, 3-year-old sister of the dead child, was police believe, the only witness to the beating, Mrs. George Sigel, wife of the landlord, and Mrs. Campbell encountered Hipple at the home shortly before the child's injuries were discovered, police learned.

"He looked at me with a dazed stare on his face," Mrs. Campbell declared to police, referring to Hipple. "We had quarreled, and I advised him to go back to his ship," Mrs. Campbell added.

Shortly after Hipple departed the condition of the child was discovered and police were notified.

USES PADLOCK  
TO HOLD MOTHER

SANTA ANA, Jan. 7.—After padding his aged mother to a counter on the interior of his cigar store and locking her inside "for safe keeping" while he went out to town for the week-end, Franklin Sparrow, 55 years of age, was arrested by the Santa Ana police last night and charged with violation of the State Housing Act.

Fleeting not guilty today when arraigned before Judge E. E. Morrison in Santa Ana, he was released on his own promise to appear for trial on the 11th inst.

Detective Sergeant E. E. Perry who found the 60-year-old woman locked to the interior of the closed building at 310 Bush street, Santa Ana, said she told him she was voluntarily confined there.

OFFICERS HUNT BABY BANDITS  
LA HABRA, Jan. 7.—Two youths, neither of whom are more than 18 years of age, are being sought today as the gunmen who Saturday night robbed Virgil Parrott, son of Dr. A. S. Parrott, La Habra physician, and attempted to rob Ralph Kerr, oil worker.

Young Parrott lost \$5 in cash, he reported to the police. Kerr refused to halt his car and made his escape.

## BEGIN TRIAL OF MAYOR

Executive of Riverside Faces Charges of Criminal  
Libel in Superior Court

RIVERSIDE, Jan. 7.—Speedy progress was made today in the trial of Mayor Dighton on criminal libel charges. The jury which is to try Dighton on an indictment returned by the grand jury as the result of an asserted interview given by the Mayor to a Los Angeles evening paper charging dishonesty on the part of certain city officials, are as follows: L. B. Nichols, Corona; R. S. Chandler, Elsinore; Mrs. Lulu A. Currier, Corona; Mrs. Ida Bryson, Alhambra; Edson Fuller, Corona; W. I. Clark, Elsinore; Elsie C. Jensen, Corona; R. C. Hutton, Corona; A. F. Dierrocco, Elsinore; E. A. Edgerton, Elsinore; O. B. Shean, Elsinore, and D. W. Glenn, Corona.

The defense attorney, Miguel S. de la Torre, asked the prospective jurors if they had read newspaper accounts of the charges against the Mayor, while Dist. Atty. Ford contended himself with inquiring if they were acquainted with the municipal executive.

The jury's deliberation where the trial is being conducted, was filled on hour before court convened and Judge Yankwich of Los Angeles, who is presiding, was compelled to order the aides cleared. In the afternoon session the jury was excluded at the request of Attorney Estrada who thereupon entered a motion in which he contended that there were not facts sufficient in the indictment to show that a public offense had been committed, or that City Auditor H. W. Pierson had been libeled.

NEW PUBLICATION  
FOR BEACH RESORT

John B. Daniell

SANTA MONICA, Jan. 7.—A new weekly newspaper, Saturday Sunset, has started publication here. John B. Daniell, former editor and publisher of the Venice Evening Vanguard, announced in his first issue, thirty-two pages, an independent news policy and a special appeal to the Santa Monica Bay district's strong inclinations toward recreation and amusement. Daniell published a number of newspapers in Canada prior to coming here. In 1908 he took a printing outfit up the Caribou road, in Northern British Columbia, and started the Caribou Observer. Joseph M. Levy is business manager of the new weekly.

RIVERSIDE TEACHER  
DIES OF PNEUMONIA  
RIVERSIDE, Jan. 7.—E. A. Zumbro, senior member in point of service in the teaching staff of the Riverside city schools, expired late yesterday at his residence on Chicago avenue. Mr. Zumbro, who was 51 years of age, had taught Riverside schools for a continuous period of more than thirty-two years.

For many years he was chemistry and physics teacher in the high school and later gave his attention to agricultural subjects. Many of the community's leading citizens were his students and he was known at the high school as "the beloved teacher."

Mr. Zumbro was taken ill the day after Christmas, his malady rapidly developing into pneumonia. He survived by his widow, Mrs. Charlotte Zumbro, and three daughters, the Misses Hazel and Olive and Mrs. Frances Thies.

Funeral services will be conducted at 2:30 o'clock tomorrow afternoon with the pastor, the Rev. John Gardner officiating. Interment will be in Evergreen Cemetery.

DEATH HITS FAMILY  
THRICE IN TEN DAYS  
PASADENA, Jan. 7.—For the third time in ten days death entered the family of the late John P. Taylor Saturday night, when Mrs. Taylor died at the residence, 300 Belvedere street, following a long illness.

Mr. Taylor died here December 26, and twenty-four hours before Mrs. Taylor's death. Mrs. H. J. Burdick, her sister, died at Cleveland, O. Mr. and Mrs. Taylor celebrated their golden wedding anniversary on September 19. They had lived together for the last twenty years.

Mrs. Taylor was the daughter of Dr. John Bennett, a surgeon during the Civil War who later was a member of the Western Reserve University faculty until his death in 1902. She leaves a sister, Miss Ellen Bennett of this city.

Funeral services for Mrs. Taylor will be held tomorrow at 11 a.m. at the Turner &amp; Stevens Co. chapel. Friends are asked to omit flowers.

Beat Up Proprietor and Customers

SANTA MONICA, Jan. 7.—Two bandits with guns and "satchels," using the latter brutally on their victims, held up the Davies drug store, 2301 Santa Monica Boulevard, this city, late last night.

Compelling F. B. Davies, the proprietor, and three customers to lie flat on the floor, face downward, in a rear room, they rifled the cash register of \$125. After striking Davies and M. B. Miller of 1947 Twenty-third street over the head with the "saps," the rough-shod bandits took \$50 and a wallet containing valuable papers from William Hubber, 343 West Fifty-eighth street, Los Angeles; \$4.50 from V. P. Sorenson, 2807 Arizona avenue, Santa Monica and \$5 from Miller.

Davies reported to police that he was alone when the bandits entered, one ordering a soda and the other a medical article. The latter followed Davies into the prescription room, and with drawn revolver compelled the druggist to lie flat on the floor. When Hubber entered the store a few minutes later he was forced to lie beside Davies. Miller was the next customer lined up. When Hubber entered the store a few minutes later he was forced to lie beside Davies. Miller was the next customer lined up. When Hubber entered the store a few minutes later he was forced to lie beside Davies. Miller was the next customer lined up.

The Superiors have made a demand that the \$75,000 be paid without further delay. Even though the county pays the \$100,000 which the Superiors have promised to do tomorrow, San Diego will be unable to make a remittance to the county from it, as all taxes, when received are directed to pay the bonds, not including the general fund from which the \$75,000 must come.

How the \$75,000 is to be paid to the county before July, when it can be paid from the general fund, is a question that is worrying the city officials. The County Superiors say they must have the money immediately.

In holding back the November tax collection, it is hinted by City Treasurer Jack T. Millan, that the county is not playing fair and is collecting interest on the \$100,000 which properly belongs to the city.

When one of the bandits demanded the keys to the safe, Davies said the delivery boy, out on an errand, had them. The bandit then struck the prostrate man over the head with his "sap." Miller received the same brutal treatment when he remonstrated. The floor beside the injured man was red with blood. The wounds, however, were not believed dangerous.

Finding the safe unlocked, the bandits searched it, scattering clothing and papers. They then rifled the cash register and carried off 165 pounds, had a thin face and wore a gray overcoat and cap. He was between 28 and 30 years of age, 5 feet 8 inches tall, weighed 165 pounds and wore a light tan suit and cap. Police believe the pair has been helped in automobile and other hold-ups.

Four Hurt in  
Auto Smashes  
SANTA ANA, Jan. 7.—Four persons were injured, one of them seriously, in two traffic accidents reported in Orange county yesterday.

Mrs. Rose Holtz, 26 years of age, of 2721 Cincinnati street, Los Angeles, was badly cut and bruised and Miss Yetta Davis, 22, of 2721 East Fourth street, Los Angeles, was slightly injured when a sedan driven by J. Tuler, 25, 453 North Alhambra street, Los Angeles, skidded on wet pavement and overturned on the State highway a mile south of San Juan Capistrano.

The injured women were removed to a San Clemente hospital.

E. R. Gregory, 545 South Figueroa street, Los Angeles, and T. F. Conway of Los Angeles were slightly hurt when Gregory's car used in the ditch on Tustin avenue, near Santa Ana. According to a report filed at the sheriff's office by Gregory, he was driving behind a small coupe driven by Mrs. Sarah March of Villa Park. Mrs. March, said Gregory, gave a sign for a right turn, but swung to the left before making the turn. Gregory was forced to swerve his car aside to avoid a collision.

Furman services will be conducted at 2:30 o'clock tomorrow afternoon with the pastor, the Rev. John Gardner officiating. Interment will be in Evergreen Cemetery.

FORMER BANKER NOW  
SANATORIUM DIRECTOR  
MONROVIA, Jan. 7.—Former president of the Granite Savings Bank here and for the last two years head of the Monrovia branch of the Bank of Italy, Arthur P. Graf, yesterday assumed active financial direction of the Potomac Sanatorium of this city. Graf continued active duties at the Bank of Italy branch on the 1st inst., but at the request of the bank, he will act in an advisory capacity. C. S. Dandridge succeeds Graf as manager. In addition to his duties at the sanatorium as executive vice-president and chairman of the board of finance, Graf will continue actively in the affairs of the People's Finance and Thrift Company and the Foothill Investment Company, serving as chairman of the board of the latter. M. S. Pottenger will continue as business manager of the sanatorium, while his brother, Dr. F. M. Pottenger, will give his entire time to the institution as medical director.GLENDALE MOTORS  
START FOR CHINA  
GLENDALE, Jan. 7.—The first of twelve motors to be installed in a fleet of airplanes has been shipped by Kinross Airplane and Motor Corporation of this city to the American Eagle Aircraft Company, Kansas City, and as soon as the motor can be installed and tested the first plane will be shipped to China for the use of the government officials. The Kinross plant is now working on the remaining motors called for by the Eagle Aircraft Company's order, and the remainder of the machines will go forward as rapidly as they can be completed. The San Francisco office to the Orient. The order for the twelve planes for the Chinese government was placed through an American automobile dealer in China.RUNAWAY CAR  
RUINS STONE DRIVE  
UPLAND, Jan. 6.—Workmen today began the job of reconstructing a stone driveway between Stevens and Eighteenth streets, Euclid avenue, which was wrecked late yesterday afternoon, and nearly claimed the lives of N. C. Graham of Santa Paula and Miss P. Orig of Los Angeles.

Graham reported the expensive new roadster he was driving got out of control and crashed into the stone driveway.

Huge stones were hurled a great distance from the point of impact, and the roadster was almost demolished.

The occupants received a number of cuts and severe bruises.

## JAIL DOES CAPACITY BUSINESS AT SAN DIEGO

Because of the recent activity of San Diego officers the County Jail is filled to a point far exceeding its capacity. Recent raids on book-making establishments, border arrests on liquor charges and a general city-wide clean-up of undesirable places has made a vital question of jail accommodations. The accompanying photograph illustrates the manner in which accused men are filling the county bastille. A remedy for the situation is being earnestly sought by Sheriff Byers and his deputies. In the portion of the jail illustrated the fourteen cells are supposed to house twenty-eight prisoners while forty-eight men are now crowded into the limited quarters. They find sleeping accommodations on the cement floor of the "tank."

## FARMERS HOLD CONCLAVE

Leading Agriculturists to Meet at Ontario; Experts  
Appear on Program

ONTARIO, Jan. 7.—Leading agriculturists of the Pacific coast will gather in Ontario Friday, the 11th inst., to participate in a program provided by the American Society of Agricultural Engineers.

Ontario was chosen for the session sponsored by the Pacific Coast section of the American Society of Agricultural Engineers, because of its central location for Southern California growers.

Nationally prominent agriculturists are included on the program. General discussion will be along the lines of "The Use of Electricity in Agriculture."

Among outstanding speakers and their subjects will be:

A. W. Christie, formerly professor in the department of fruit production and viticulture at Berkeley—"Dehydration of Fruits and Nuts."

G. B. Ridley, industrial heating engineer of San Francisco—discussion of Mr. Christie's subject.

W. E. Lyon of the Lyon Electric Company of San Diego, and A. R. Wood of the Wood Manufacturing Company of Santa Cruz—both to present papers on "The Design of the Electric Brooder."

Prof. J. E. Dougherty—"The Care and Operation of Electric Brooders." The session opens at 10 o'clock Friday morning in the auditorium of Chaffey Union High School, conference room.

All the delegates will be guests at a dinner in the evening at which Prof. C. J. Booth, dean of Chaffey Junior College, will be toastmaster. E. Fawcett, sales engineer of the Moreland Truck Company, will be speaker on the subject—"The Trend of Truck Transportation."

Majoring in Greek, he received his A.B. in classical literature. He was a member of the Chi Nu Kappa honorary society, and Phi Beta Kappa, national scholarship fraternity. A former resident of Detroit, Scott has been a local resident for the last ten years.

He was named for his uncle, Arthur Fleming, local philanthropist and financier.

Confusion of Identities Causes Arrest of Cucamonga in  
Auto Accident Who Protests to Judge That He  
Has No Car and Never Has Learned to Drive

UPLAND, Jan. 7.—It's just a case of tough luck when you have a good name and you're proud of it, and along comes someone else with the same name, and breaks the law, and the cops think you're the one to suffer.

Such is the thought of Frank Lopez of Cucamonga.

Recently there was an automobile wreck near Bloomington, and a charge of reckless driving was filed against Frank Lopez.

Police went to Cucamonga and told Frank Lopez he had to appear in court to answer the charge.

Lopez went to court and the court read the charge to him. Lopez told the court he didn't own an automobile, and doesn't know how to drive one.

The court is still wondering how to handle the Frank Lopez case as there is another traffic charge on the Colton Judge's books against Frank Lopez. The other Frank Lopez formerly lived in Cucamonga, too.

MASONIC INSTALLATION  
SIERRA MADRE, Jan. 7.—District Inspector Leslie M. Renaker of Monterey will officiate at the installation of Harold H. McMillen, Master-elect, and his corps of officers of Sierra Madre Lodge, No. 404, P. and A. M., next Tuesday night at the Masonic Temple. The installation ceremony, which will be open only to Master Masons, will be prefaced with dinner at 6:30. Justus Kraft will act as master of ceremonies. McMillen succeeds Conners I. **YELLOW CABS' CHIEF RETIRES**  
John Hertz Commences Play at Fifty Years  
Another ex-Newsboy Grasps Reins of Power  
Magnate Endows Employees Who Aided Fortune  
CHICAGO, Jan. 7. (Exclusive)—  
John Hertz, hale and hearty in his  
fiftieth year, who began his busi-  
ness life as a newsboy in the streets  
of Chicago, retired today as chair-  
man of the board and president of  
the Yellow Cab Company, many  
times a millionaire.  
And into the position of chairman  
of the board stepped another who  
started as a newsboy, Charles A.  
McCulloch, president of the Payne-  
Transfer Company. Mr. Hertz,  
it was announced, has sold all his  
holdings in the company and most  
of them have been acquired by Mr.  
McCulloch, who thus becomes the  
dominant stockholder of a company  
with net earnings of \$2,000,000 a  
year.  
Part of the \$4,000,000 of stock  
that Mr. Hertz did not dispose of  
to Mr. McCulloch he gave to about  
sixty employees who started in the  
business with him. About 7000  
shares he intended to sell to these  
employees on easy deferred pay-  
ments.  
Mr. Hertz has decided to play the  
remainder of his life. He owns a  
sumptuous estate near Chicago—a  
stock farm on which was bred Reigh  
County, winner of the Kentucky Der-  
by and many other classics, and up-  
disputed turf champion of 1928.  
After a few weeks' rest at his  
Florida estate Mr. Hertz will go to  
England, where he has a home.  
He shipped overseas some weeks ago,  
will contend for several of the high-  
est British turf honors.

**WAR OPENS ON BAY CITY RUM GANGS**  
Threatening Notes Sent to Federal Attorney and Police Start Action  
SAN FRANCISCO, Jan. 7. (Exclusive)—The United States government voluntarily plunged into San Francisco's illicit liquor situation with an unexpected and widespread splash today to check in its ineptness any attempt on the part of rum runners and bootleggers to establish racketeering in the Bay district on a scale comparable to that of Chicago and its environs.  
The action was almost simultaneous with receipt of a death threat addressed jointly to U. S. Atty. Hatfield and the police department mailed in this city last night, and received in today's mail by the Federal attorney. The threat made specific reference to the case now under investigation by police in which a police corporal, probably was fatally wounded by gunshot when he and two companions stumbled into an enormous illicit distillery, protected by an elaborate series of warning devices and gun traps, early last Saturday morning in the Visitacion Valley district of the city.  
The note to Attorney Hatfield said: "Keep your hands off this case if you want to live a few days longer."  
That to the police department was: "Watch your step. You are going to get in a trap from which you will never see this world again. The Black Hand Gang."

## .. this coke-like carbon from burned oil

Older motors might find room for a handful of coke-like carbon. There is but a knife blade of "clearance" in our fine new engines—no room for carbon

**AT** THIN dime on top a piston would bump the cylinder head—in some of the new motors. No clearance, no room for carbon deposits.

You've seen how carbon forms in layers, how it has to be scraped from spark plugs, valves, pistons. Most of it comes from burned oil. And the surprising thing is that many high priced oils form great quantities of flint-carbon.

It is shameful to let a fine new motor knock and strain. To let it choke up with hard carbon that flakes off, holds valves open and wastes power. To let abrasive chips grind like grit through every bearing!

And you need not use a carbon-forming lubricant. There's an improved oil, ideal—almost a necessity—for modern engines.

**Burns to soft soot only**

Not much oil burns in a good motor—but there's always enough to form carbon. Shell Motor Oil, the result of a new and exact refining process, forms 2-3 less carbon than even the costliest oils you can buy. The little it does form is only soft soot that blows away through the exhaust.

It is a finer lubricant, so carefully vacuum refined that none of its sturdy body is lost. Shell Motor Oil can truly "add thousands of miles to the life of your car." At yellow and red signs, everywhere convenient.

# SHELL MOTOR OIL

Shell 400, the new "dry" gas that burns cleanly and keeps out of the crankcase, is the ideal running mate for Shell Motor Oil. Even Shell Motor Oil can be ruined by "thinning" with a "wet" gas

## OUTFLOW OF CAPITAL IN YEAR HEAVY

Foreign Borrowings in America Reported Near 1927's Record Mark

WASHINGTON, Jan. 7. (AP)—High money rates which prevailed in the United States during most of 1928 failed to deter in any substantial degree the flow of capital abroad from this country.

The Commerce Department calculated today that foreign securities issued and sold in the United States for 1928 amounted to \$1,438,487,500, the highest ever recorded with the exception of the \$1,562,555,700 marked up for 1927. The higher level of foreign issues had a sharp effect on the foreign lending by this country, since the record shows that more than \$1,900,000,000 of the 1928 total went abroad during the first half of the year and the total American investments abroad during the last half of 1928 dropped to \$379,000,000.

Germany was the largest borrower from the United States in 1928, and was credited with taking \$390,000,000.

Latin American countries, long important in the American financial field, were exceeded by Europe in 1928 borrowings. Chile took \$81,412,000, practically all in government or government guaranteed issues; Brazil \$78,245,000, all government or government guaranteed; Argentina, \$58,395,000, nearly all government.

Canadian financing for 1928 in the United States was second only to Germany's, total being \$340,000,000, of this, \$167,000,000 represented by exportation of \$2,000,000,000 of provincial or municipal bond floatations and \$31,000,000 Canadian railroad security issues.

## UNION BANK MERGER RUMOR GIVEN DENIAL

Ben R. Meyer, president of the Union Bank and Trust Company, said yesterday that there is no foundation for the rumor recently circulated that negotiations are in progress for the merger of the Union Bank with the Farmers and Merchants' National Bank, or any other bank. The Union Bank, Mr. Meyer said, is in strong independent position, without alliances or affiliations in ownership of any sort whatsoever.

Rose Klein is president, Jake Shank, vice-president, and Leo Shapiro, secretary-treasurer of the company.

## RAND SILVER HINTS AT PASSING DIVIDEND

Following the declaration of the regular bimonthly dividend, No. 31, directors of California Rand Silver, Inc., in a letter to stockholders yesterday stated that it may be necessary to discontinue the regular payment. Total revenue for the past two months amounted to \$59,476.16 and the dividend payment for the period \$12,800. Decreasing ore values and the testing of a new lead-silver property, the acquisition of which directors have under advisement, is stated as the reason for probable discontinuance of regular dividends.

## BUILDING AND LOAN SHOWS RAPID GROWTH

Resources of Investment Building and Loan Association increased \$3,968,020 during the year 1928, or more than 300 per cent, to a total of \$12,720,765, it was reported yesterday by the company. Receipts from investors, for full paid, guaranteed certificates, installment certificates and membership shares, increased \$2,603,743, or 400 per cent, to \$5,128,919.

One can cultivate cynicism, skepticism or disbelief for as long as one can gain understanding, appreciation or conviction. (Ernest M. Hopkins.)

Question Mark Performance Broadens Field for Commercial Aviation; Fokker Climbs

Performance of the Question Mark in staying aloft for a new world's record for any kind of aircraft has rekindled interest in aviation shares from the investment point of view. The feasibility of refueling, as demonstrated by continuous flying of more than six full days' time, unquestionably opens up new vistas for the transportation companies, and appreciably advances the investment status of aviation shares.

If commercial planes are able to refuel in transcontinental flight, the field of commercial aviation has immense possibilities. The time element in long flights will be shortened, which is particularly important in the carriage of mail. Passenger travel also will be expedited, although it is likely that the demand for continuous flights from coast to coast will come only from passengers pressed by urgent circumstances.

## Rumor on Wall Street of New Bank Combine

NEW YORK, Jan. 7. (Exclusive)—Several rumors among New York banks, which if put through, will combine enormous amounts of capital, are said to be in the making. This merger trend which is leading to conditions in the United States similar to the financial and banking structure of England, has been going on for some time and it is occupying a great deal of serious attention in Wall street.

It can be safely said that in the next few weeks news of great importance will come out of the banking field in Wall street. Among the most persistent rumors heard is that the Nassau National Bank in Brooklyn has been bought by a large Wall-street institution, the name of three banks, the Chase National, the Bank of America and the Guaranty Trust Company being linked with that of the Nassau National. In none of these banks could the news be confirmed.

Another persistent rumor is that the National Bank of Commerce is negotiating with another large institution looking to a merger. It is also said that the Equitable Trust is carrying on negotiations in another quarter.

## Tank Car Plans for Melon Cut

NEW YORK, Jan. 7. (Exclusive)—Directors of the General American Tank Car Corporation will officially vote the declaration of stock dividends at the annual meeting of the 25th, that, Max Epstein, chairman of the board, announced today prior to sailing on a world trip in the interest of the business. It is the plan of the directors, he said, to declare in addition to the regular cash dividends extra stock dividends.

Earnings of the corporation during 1928 were satisfactory and are estimated to be approximately \$800,000, Mr. Epstein said. The outlook for the year is bright, he added, and with the continuation of the company's expansion policy earnings of the corporation are expected to show a considerable increase.

## American Chicle Earnings Gain

NEW YORK, Jan. 7. (Exclusive)—Net earnings of the American Chicle Company for 1928 after all deductions, including depreciation and Federal income taxes, are sensationally estimated at approximately \$1,800,000, or the equivalent of \$4.13 a share on the 435,380 shares of common stock to be presently outstanding, according to a statement issued today by Thomas H. Blodgett, president of the company.

Net income in 1927 amounted to \$1,524,000, equal to \$4.75 a share on the 187,500 shares then outstanding. The common stock was recently split two for one and \$2.190 shares were offered for subscription to common stockholders to enable retirement of the prior preferred stock.

## NEWBERGER QUILTS BROKERAGE GAME

Newberger Parsons & Co., members of the Los Angeles Stock Exchange, announced yesterday the retirement of its president, George Newberger. Mr. Newberger has been a resident of Los Angeles since 1912, having come here from West Virginia. At present Mr. and Mrs. Newberger are vacationing in the East. Upon his return he will devote his time to personal affairs, it was stated.

## COLLIER SCANS TRADE SKIES

Advertising Expert Holds Optimistic View of General Status

WASHINGTON, Jan. 7. (AP)—Barron Collier, New York capitalist, believes that prosperity will continue through 1929. He bases his belief on the result of observations made by members of his organization in 3500 communities, these findings being compressed by Collier into a book, "How Is Business in the United States," the first copy of which was presented today to President Coolidge.

Mr. Collier said that there had been marked improvement shown in agricultural regions of the Middle West and Northwestern sections and that the weakest spots were in the coal regions, and parts of the lumber, fruit and vineyard sections.

## Tone on London Market Buoyant

LONDON, Jan. 7. (Exclusive)—The stock market had a buoyant tone here today featured by strength in Mond Nickel and Ford Motors, Ltd., the latter selling at 24. Buying in these issues was attributed to American sources. Telling machine issues were also in demand, especially Victrola and Columbia Graphophone. The tobacco market was steady, and the official silk issues were strong, particularly Courtauld's. The oil group had a firm tone and the mining list was steady, with Rhodanese issues the most active. Textiles were in good demand and electrical and hydroelectric issues were higher.

The gilt-edge division had a steady tone. Foreign issues moved irregularly with Mexicans in good demand. Home rails had a strong tone and Argentine rails were steady.

## TIRE SALES OF SAMSON RUBBER UP

New Record Reported for Eleven Months at \$7,605,410 Total

Sales of Samson Tire and Rubber Corporation totaled \$7,605,410.55 for the eleven months ended November 30, last, a new record for volume in the history of the company, which compares with \$5,598,975.58 for the entire year 1927, it was announced yesterday in connection with the plans for refinancing the company.

Earnings for the eleven months after an inventory write-off of \$154,408.51 totaled \$25,425.39 as compared with \$29,716.16 for 1927. Earnings for the five months ended November 30 were at the annual rate of \$540,487.10, equal to approximately \$11 cents maximum annual interest charges on debentures to be presently outstanding.

A group consisting of George H. Burr, Conrad & Broom, Inc., Huntley & Co. will offer today at par \$1,000,000 Samson Tire and Rubber Corporation 6 1/2 per cent convertible shares issued to shareholders in place of the 200,000 shares of the old stock. Approximately 25,000 shares additional stock will be offered by the syndicate. It is understood that application will be made to list the issue on the Los Angeles Curb Exchange.

## Standard Sets Price of Stock to Oil Workers

NEW YORK, Jan. 7. (Exclusive)—Trustees of the stock-acquisition plan participated in by employees of the Standard Oil Company of New Jersey and subsidiaries, announced today that the price of shares to be bought by employees subscribers to the stock acquisition plan had been fixed at \$47 a share. The plan dates from January 1, 1929, and the price fixed will be in effect for the first six months. It is based on the average price made in transactions in the stock market in the last three months of 1928.

The price under the second plan which expired December 31, 1928, was \$41 for the last six months of the year and was \$38 for the first half of that year. Under that plan the employees' subscription fund reached a total of about \$18,000,000. Stock certificates for that amount will shortly be distributed to the subscribing employees representing the closing of the second plan.

The third subscription plan starting the first of this year will run three years. Employees will be privileged to subscribe to stock up to 10 per cent of their salaries. The plan will cover 15,000 employees subscribed to stock of the company.

## December Chain Store Sales Up

NEW YORK, Jan. 7. —The McCrory Stores Company reports December sales of \$7,215,956, as compared with \$6,897,307 in the same month a year ago, an increase of 4.5 per cent. Cumulative sales for the year were \$41,801,206, an increase of 4.4 per cent over the preceding year.

The David Fender Grocery Company reports sales for the month of \$1,864,654, as compared with December 1927, an increase of 6 per cent.

## OIL STOCK APPROVED

Southern Petroleum Properties, Inc., has received a permit from Corporation Commissioner Friedman to dispose of all of its 500 shares of stock. Each share has a par value of \$1. The company was organized for the purpose of acquiring oil leases in Santa Barbara county. Officers are G. A. Lathrop, Howard A. Broughton, John H. Marlow, A. G. West and W. H. Johnston.

## COTTON MARKET

NEW YORK, Jan. 7. (AP)—The cotton market was lower today, with prices making new grounds for the month under a general feeling of liquidation and selling which seemed to come from southern, western and Wall street sources. The trade demand encountered around the 1500 opening level, but the market seemed to be quite readily supplied, with prices declining to 13.42 for that position. The market met a little more support, and prices advanced to 13.42 for the selling was active with the tape after steadier during the middle of the afternoon.

## NEW ECONOMIC LAW FOUND

Reserve Bank Official Says Old Function of Gold as Standard Being Supplanted

BY JOHN F. SINCLAIR  
 [Copyright, 1929, by the North American Newspaper Alliance.]  
 NEW YORK, Jan. 7.—Has the gold standard been abandoned and a new gold reserve standard taken its place in the world's credit system? E. A. Goldenweiser, director of research of the Federal Reserve Board, broods in the expansion of the tour-  
 "There has emerged the gold-reserve standard, which tends to relieve gold of all its functions, except the duty to act as reserves," says this economist.  
 To put it another way, the recent movement of gold from one nation to another has become primarily a matter of policy, not of economic law. The central banks of the world have definite and positive control of all the major gold movements. This explains why the loss by the United States of \$200,000,000 in gold during the last year was due not to an unfavorable international trade balance, but to the fact that foreign countries wanted gold for reserve. It likewise explains why in the face of much higher discount rates in New York than in Europe, a return movement in gold, in volume, so far has not occurred.  
 If gold has been relieved of all its functions except that of serving as a reserve, it would seem to follow that a diminished world production of new gold in the future could be met, not by a deflation of the price level, as often in the past, but by lowering the gold reserve ratio.

## Standard Sets Price of Stock to Oil Workers

A good roads program is sweeping Europe. Czechoslovakia, which adopted a ten-year road-building program involving the expenditure of \$20,000,000, has decided to increase it within five years. Why? Because of the unexpectedly large amounts which have come in from the road tax on motor vehicles. Great Britain is another country planning its road program far in advance. In the old days, before the war, roads were largely under local jurisdiction. Now they are coming more and more under central Federal control. In England the total receipts of the road fund from all sources in 1928 amounted to about \$100,000,000, compared with \$60,000,000 in 1927.

Main highways are being made out of old country lanes and bridges are being modernized and strengthened, and new roads are being constructed with a view to building up outlying towns and cities.

Other countries particularly active in road construction are Spain, Italy, Germany and Switzerland. They all see the advantage of good

## BRIGHT OUTLOOK ON METAL MART

New Year Starts With Brisk Buying Activity

Copper and Lead Advance to Higher Levels

Zinc Unchanged; Sentiment in Trade Improving

BY CHARLES F. WILLES

The New Year ushered in three price advances in copper and one in lead, bringing the former to 14.50 a lb. New York. Zinc has remained the same, 4.50 a lb. St. Louis, although a new optimism on the price situation exists.

Although the metal trade is usually quiet around the holidays, this year saw a different condition with copper, as sales mounted to new records and there was a crowding into the market to place orders. Even the price advances did not slow up the business. On three successive business days, December 28, December 31 and the 2nd, and the price advanced a quarter-cent, and it was not until the 3rd that the market was reached that buying slowed up.

The earthquake at Braden has probably had something to do with the unusual appreciation of copper consumers, as it has been announced that Braden would cut its production down to about 50 per cent until such time as penalties are obtained from the Chilean government for tailings storage. This, with the accident at Cerro de Pasco, while only temporary, will have a bearing on the amount of copper available for March and April delivery.

It is stated that December sales of copper exceeded 135,000 tons, this being close to the year's record. Of these sales, over 80,000 tons was on domestic account, the third highest for any month this year. The December sales totaled about 80,000 tons more than was sold in November. Inasmuch as the bulk of this buying came in the last few days of the month, it is evident as to the reason why the price was forced up.

HEAVY SALES IN WEEK  
The high month of the year was September with 158,000 tons domestic sales and 98,000 tons foreign sales. The next month was October with 80,000 tons domestic and 80,000 tons foreign sales. While the sales for December were well behind either of these months, the rate of selling during the last few days was abnormally high, and copper conditions in general are quite different than they were previous to the September-October buying wave.

Most of the buying has been for March delivery with the producers reluctant about selling April metal. Where April metal is being offered for sale, it is being bought freely, thus showing an anxiety on the part of the consumers about covering their requirements. It is said that most producers are sold out until March 1.

The present copper price is the highest since the war except for a short period in 1922, when it went up to 17.50 delivered. The average for 1928, however, was 14.94, as that was a year of considerable fluctuation.

Wenden Copper Mining Company, Wenden, in the Cunningham Pass section of Arizona, has taken the necessary corporate proceedings preparatory to mill construction. Announcement of the company's plans in this direction is made by Ned Creighton, president and general manager, who was in Los Angeles last week.

The site selected for the mill, Mr. Creighton says, is on the hillside near the mine, but there will be two camps, one for the mill and one for the mine. Houses for the mill workmen will be erected at once. The mill will be a modern plant with an ultimate daily capacity of 500 tons. The building itself will measure 75 by 180 feet.

Additional buildings will be constructed for the concentrate thickener and silver plants. The ore will be built up as to permit gravity feed to the mill. Arrangements are also being made for better transportation from the mill to the shipping point at Wenden, a station on the A. T. & S. F. Railroad, a haul of approximately ten miles.

The decision to go into production, Creighton states, is the result of a favorable showing following approximately five years' development work. The claims of the company have been held by location for over thirty years, and the property was once prospectively owned by the Wenden Copper Company, of which L. H. Barkdoll, now general manager of the Old Dominion Company at Globe, controlled by the Phelps Dodge interests, was president.

## LEAD SENTIMENT BULLISH

The lead sentiment is more bullish since the improvement in the London market. The price has been held back because of the weakness abroad and with a better London market, the price has advanced. It is felt that further advances are coming abroad and, if this is the case, the price will probably be further increased price in this country.

The principal buying is for January and February shipment. The production of lead by important countries during the month of November aggregated 147,500 short tons, the highest figure on record since the production of 139,000 tons in October, and 137,350 tons in November, 1927. The daily rate last month of 4,750 tons compares with 4,680 tons in October and 4,979 tons in November a year ago, and incidentally was the highest of any month on record.

The world's total production for the month of November was 161,500 tons, as compared with 151,350 tons in October and 147,500 tons in November, 1927. The average for the entire year of 1927, the daily rate this year has averaged 4,671 tons, which compares with 4,615 tons daily in 1927.

For the first eleven months of 1928, the production of reporting countries amounted to 1,497,577 tons, which was a decline of 11,583 tons from the output of the corresponding period of 1927. Thus far this year the average rate of output has been 138,171 tons a month, as compared with 137,599 tons a month, the average for the entire year of 1927, the daily rate this year has averaged 4,671 tons, which compares with 4,615 tons daily in 1927.

## ZINC MARKET STEADY

The zinc market is steady with producers willing to take orders for March and April delivery, with few sales booked for these months. There is no rush to cover requirements, although the signs show consumption to be increasing. It is not generally thought that there is to be any price advance in the immediate future.

The production of zinc by important countries during the month of November totaled 127,350 short tons, the highest figure for any month since May, 1928, and comparing with 126,719 tons in October and 119,645 tons in November, 1927. The daily rate last month of 4,245 tons compares with 4,068 tons in October, 4,068 tons in November, 1927, and was the highest of any month this year since March, when it amounted to 4,239 tons.

The world's total production for the month of November was 131,850 tons, as compared with 130,919 tons in October, and 123,846 tons in the eleven months of 1927.

For the eleven months ended November 30, 1928, the production of reporting countries amounted to 1,379,814 tons, which was a gain of 91,900 tons over the corresponding period of 1927. Thus far this year the average rate of output has been 123,647 tons a month, as compared with the 1927 monthly average of 117,921 tons.

Newspaper reports have stated that the American zinc producers have joined with the European cartel, but this has been vigorously denied by the American Zinc Institute, which states that the report was without foundation, and by the Zinc Export Association, which says that it has no such agreement, implied or otherwise. The explanation of the report seems to be that American interests controlling mines in Mexico and Belgium are parties to the agreement to curtail production 7 per cent.

## Gasoline Tax Ruling Again Denied by Court

WASHINGTON, Jan. 7. (AP)—The Supreme Court again refused today to pass on the appeal of the 21st refiners attacking the validity of the Montana tax of 3 cents a gallon on gasoline.

The court recently dismissed the appeal, holding that it did not present a Federal question. The refiners insisted that as gasoline brought into the State in competition with it was not so taxed it was being subjected to unfair and ruinous competition.

## RAILROAD BONDS

... THE BACKBONE OF MANY AN AMERICAN FORTUNE

FOR nearly a century, railroads have been the very foundation for the growth and prosperity of America, linking together every section of the country and playing a vital part in the development of the nation. Through their agency, commerce, industry and agriculture have been immeasurably facilitated, great metropolitan centers developed, new communities founded, and vast areas opened up for settlement.

lists of conservative English, Dutch, German, French and American investors. Today, more than ever, these investors present a sound investment opportunity and are widely purchased and held by leading insurance companies, trust estates, corporations and other large investors. Many a college endowment fund is made up largely of railroad securities.

The past few years in particular have been a period of growth in railroad securities. The property rights toward the electrification of lines, together with the development of new transportation and air travel, are in conjunction therewith. For an investment of the highest type, we suggest.

The fundamental character of the service rendered has made the securities of great railroad companies one of the most dependable of investments; in fact, the very phrase, "railroad bonds" has become synonymous with utmost security and protection. For nearly three generations, American railroad bonds have occupied an important place on the investment

## APPRECIATION POSSIBILITIES

Preference Stock of a basic Industry offers unusual

AN unusual opportunity to secure a stock investment backed by real value and offering attractive appreciation possibilities is to be found, we believe, in the \$3.00 Cumulative Participating Preference Stock of the AMERICAN SOLVENTS & CHEMICAL CORPORATION, one of the leading producers of alcohol and related chemicals in the United States.

Recent stabilization of the alcohol situation by Government regulation and restriction of output has placed the industry on an unusual basis. This is reflected in the greatly improved cash position and earnings of the company.

Earnings for the year ended October 31, 1928, were over \$6.50 per share on the Preference Stock and over \$2.00 per share on the Common Stock. Dividends have been resumed as of January 2, 1929, on the Preference Stock, which pays \$3.00 annually. There are \$6.00 per share of arrears on this stock, on which the directors have not yet taken action. Both the Preference and Common Stocks, listed on the New York Curb Market, appear underpriced at current levels, and we believe their immediate purchase is desirable.

Price Market (about \$47.50 per share)  
We shall be glad to furnish detailed information regarding this attractive issue.

Government Body

Broadcasters Gather to  
Consider Problems

BY MARTIN CODEL  
(Copyright, 1935, by North American Publishing Co., Inc.)

WASHINGTON, Jan. 7. (Exclusive)—Radio problems from the point of view of the nation's lawmakers—the broadcasters, the manufacturers and the courts—are under review this week.

Congress is about to take up the question of continuing the Federal Radio Commission for another year at a time when that body has become enmeshed in a tangle of new legislative proposals.

Several weeks will be consumed by the House committee hearings before the lower chamber is called on to vote for the extension of the commission proposed in identical bills introduced by Sen. Charles McNary and Sen. Charles McNary.

The movement will leave a force of about 3000 in Nicaragua. The men affected by the order, mostly as soon as transportation facilities can be arranged.

The marines went to Nicaragua about two years ago when an uprising broke out. They were held there to supervise the recent elections.

SPokane, Jan. 7. (AP)—Railroad construction workers in widely scattered parts of the world passed an hour today while funeral services for Patrick Welch, internationally known contractor, were being conducted in Our Lady of Lourdes Cathedral here.

Project in Persia, Spain, England and in many parts of Canada and the United States were halted for one hour. The company was conducting the funeral services in Our Lady of Lourdes Cathedral here.

Four Gangsters  
Admit Murder

WASHINGTON, Jan. 7. (AP)—The Porter bill looking to the establishment of two narcotic farms to replace the present concentration of narcotic addicts in Federal prisons was passed by the Senate today and sent to President Coolidge.

The measure would authorize the Secretary of the Treasury and the Attorney General to select cities for the institutions and to collect information regarding the crime and type of buildings and other facilities needed. On the completion of this study Congress would be asked to go ahead with the project.

Radio Blue Law  
Proposal Fails

WASHINGTON, Jan. 7. (AP)—There will be no blue laws governing Sunday radio broadcasting, so far as the Radio Commission is concerned. Louis G. Caldwell, general counsel of the American Radio Relay League, said today that the commission has no power under the law to restrict Sunday broadcast to religious music and oratory, as asked by the Lord's Day Alliance.

ENGINEER ON TRAIN  
IN TEXAS LOSSES LIFE

CORPUS CHRISTI (Tex.) Jan. 7. (AP)—A. J. Ferrin, engineer, was killed and the fireman and baggage train No. 14, on the Gulf Coast division of the Missouri Pacific line, struck a broken rail at Ricardo today.

## WOMEN DIE IN COLLISION

Nine Others Require Hospital Treatment After Three  
Crashes on Kern County Highways

WASCO, Jan. 7.—Accidents exacted a heavy toll in Kern county late last night resulting in the death of two women, victims of an automobile crash. The collision which resulted in death for the two women involved three machines and sent seven others to the Emergency Hospital for treatment of injuries, while two other traffic accidents raised the number of automobile victims to nine.

The dead are Mrs. Nels Peterson, 40, of Wasco, and Mrs. C. O. Peterson, 35, of Wasco. The injured are Mrs. Peterson's 18-month-old grandson, head lacerated; M. Stanton, San Francisco, head lacerated; Mrs. Stanton, severe back injuries, left shoulder broken, severe shock; John Burton, severe spinal injuries, shock; Burdell Burton, 13, scalp wounds; R. E. Grothaus, Kansas City, fractured ribs, and Mrs. Henry Houston, Bakersfield, right clavicle broken.

According to traffic officers, the fatal crash occurred seven miles south of Bakersfield. Stanton's machine, which was headed south, went out of control, spun on the wet highway and then crashed, first

## Pope to Bestow More Red Hats

ROME, Jan. 7. (AP)—An unprecedented situation in the Sacred College was created today by the death of Cardinal Tommaso Achilli of Milan. For the first time since the so-called babylonian captivity (when the pope lived in Avignon for 69 years) there are no red hats in the Sacred College.

## DERN WARNS OF FALSE ECONOMY

Utah Governor Says Low Tax  
Not Always Saving

Executive Inaugurated for  
Another Term

Declares Equal Distribution  
of Burden Essential

SALT LAKE CITY, Jan. 7. (AP)—Low taxes are not always the nearest way to economy, Gov. George H. Dern declared here today in his inaugural address. Along with other newly elected State officials, he took the oath of office as the State's executive for the second time.

He traced the development of the multifarious responsibility of modern government and made a plea for united effort of citizens and officials toward development of the State's resources and advantages.

ACTIVITIES COST MONEY  
"A good government strives at all times to promote the welfare and happiness of its citizens, and presumably the establishment of these multifarious governmental activities is for the purpose of the State," he declared, "but it costs money, and hence there is complaint of high taxes. We sometimes forget that if we discontinued some of our public activities and thereby reduced taxes, the expenses of the individual taxpayer might easily be increased rather than diminished by such attempted economy."

For example, if we closed down our institutions of higher education, it might cost more to send our children to distant colleges. If we abandoned our public health service we should doubtless all have bigger doctor bills.

High taxes have probably caused more revolutions and have destroyed more governments than any other cause. One of the surest ways to keep the people contented is to keep their taxes down. And yet there comes a time when the popular demand for increased public service outweighs the desire for low taxes. When the people want a service and are willing to pay for it, they should not be denied.

## BURDEN MUST BE EQUAL

"To therefore come to a matter of justice, and the essential thing is to distribute the burden of taxation equitably."

"Taxation is exacting more discussion in our State today than any other topic. In our complicated social and economic structure it has become a difficult and highly technical subject."

"It must not be forgotten that our social, cultural and spiritual welfare depends largely upon our economic status and if we are practical, we must endeavor to make our material development must often precede our enjoyment of the finer things of life."

## Latin Alphabet Cause of Plots

CONSTANTINOPLE, Jan. 7. (AP)—Fear of Moslems that their sacred religion is being undermined by the introduction of the Latin alphabet and other measures is believed today to have resulted in plots which were suppressed by the government at Sivas and Brusa.

The new alphabet became effective on New Year's Day when street cries beat drums in every village throughout Turkey calling on males and females between 18 and 40 years of age to enroll in the new national schools.

## Gary Memorial Church Burned

CHICAGO, Jan. 7. (AP)—The Gary Memorial Methodist Episcopal Church of Wheaton, Ill., erected by the late Elbert H. Gary and endowed by him in his will, was destroyed by fire today. The church was erected in 1900 in memory of Mr. Gary's father and mother.

## Dry Chiefs Seek New Teamwork

WASHINGTON, Jan. 7. (AP)—Conferees between prohibition administrators throughout the country, State officials and United States attorneys, to devise means of closer co-operation between State and Federal authorities in enforcing the prohibition law, are being arranged by the administrators. It was announced today by Al Otis, acting prohibition commissioner, that the prohibition bureau has requested the administrators to take this step with a view to planning where possible a division of responsibility.

## Brain Stars in Research Film

BERKELEY, Jan. 7. (AP)—A new film, in which the human brain is the star performer and the brains of various animals play minor roles will be presented on the University of California campus the 16th of the month. The film, entitled "Mechanics of the Brain," represents twenty-seven years of research and is a photographic record of the work of the Russian physiologist, Prof. Ivan P. Pavlov.

## "BOSTON HEARD"

BOSTON, Jan. 7. (AP)—The Boston Herald today announced that Robert Lincoln O'Brien, its editor for eighteen years, has retired. The organization otherwise will remain unchanged, the announcement said. Mr. O'Brien was personal secretary to President Cleveland from the time of his nomination in 1892 to 1898.

The arguments of Rush, however, were overruled by the court on the statement that all of the testimony taken before the grand jury had been provided to the defense.

Berman or Bennett will take the witness stand near the end of the presentation of the prosecutor's case, it is learned, and will substantiate the facts and circumstances set out in a diary, the most important feature in the prosecution case and introduced before the grand jury during its investigation of the alleged bribe plots, by Emma Rice and John Sherman, two former employees of the Gettys.

### OVERTE ACTS LISTED

The indictment against Keyes and the five defendants based on data in the diary sets out overt acts in which it is charged that Bennett on July 19 gave Riemer \$200; that he gave Ben Gettys \$7500 on February 18; and \$10,000 to Ed Rosenberg on the same date; that on March 25 he gave Ben Gettys \$10,000; that on March 26 he presented Keyes with a check for \$435.50 and on July 18 gave Ben Gettys \$500, and that he was present at one meeting of February 14 and another on May 24 at the Gettys tailor shop. At the February meeting Ed Rosenberg is asserted to have been present, while the May 24 meeting was attended by Riemer, Keyes and Ben Gettys, it is charged.

The offer of Bennett or Berman to become a witness for the prosecution was a voluntary one, it is charged. Chief Deputy Stewart, who said that the former Julian Petroleum official proffered his information to the people's attorney without invitation. "Bennett said that he is ready to give all the assistance he can to the investigation and trial of the bribery case," Stewart said, "saying that he is tired of being harassed by half a hundred charges and is ready to serve his Federal sentence."

### MOVIE BLOCKED

Another defense attempt to win a court battle was blocked by Judge Butler when he refused to permit the reopening of arguments on motions made by Defense Attorney William Reisinger. Judge Butler said that the indictments do not contain a specific charge and that the "court lacks jurisdiction. The issue motioned by Reisinger some time ago and was denied. Judge Butler said he could see no reason for reopening the case, although the attorney Reisinger pointed out that he believes that the present court has a right to a different opinion on the question than Judge Edmonds.

Examination of prospective jurors began before the noon recess, and continued throughout the remainder of the day. When court closed last night, neither side was willing to concede that the panel may be completed, the most optimistic guess being sometime late today.

In examining the jurors, Attorney Paul Schenck, Le Compe David, Milton Phillips, Al McDonald, W. W. Thompson, and Charles Reimer, dwelt considerably on the Julian case from their inception.

### QUESTIONS ASKED

"Was the juror acquainted with any of the grand jurors responsible for indictments in any of the Julian cases? Did they own any Julian stock at any time? Were they interested in the Julian case prosecution, either directly or indirectly?" Another question repeatedly asked was whether the prospective juror ever listened over the radio to a certain minister who talked on the Keyes case, or were they members of his congregation. All of the jurors replied either that they did not hear the radio addresses or were not influenced by them.

### THOSE IN JURY BOX

The personnel of the jury box at the close of the day was as follows: Mrs. Mary Bigelow, 2636 Kenwood avenue; Henry D. Smith, 719 North Rowan avenue; J. L. Curry, 6045 Stafford street, Huntington Park; Walter F. Brown, 1105 Wilshire boulevard; Mrs. Anna C. Hopkins, 1086 Fifth street, Los Angeles; P. H. Maurer, Covina; John C. Row, 212 South Sixth street, Alhambra; Alexander Gray, 1616 Wayne avenue, South Pasadena; W. S. Stewart, 1211 Fifth street, Santa Monica; Henry Mitchell, 1181 East Fifty-eighth street; Mrs. Nellie Phelps, 350 West Eleventh street, and Mrs. Kate Corbin, Los Angeles.

Keyes and the other defendants, plus their imposing array of counsel, presented an unusual legal picnic in Department Five, located in the old Courthouse. Counsel in the case took up all the available room at the counsel table and the defendants were forced to sit in a row of chairs behind their lawyers.

## OBSEQUES CONDUCTED FOR ACTOR

Close Friends Attend Last Marc McDermott Rites at Mother's Home

The film world paid its last tribute to Marc McDermott, veteran stage and screen actor, yesterday when funeral services were conducted by Rev. Neal Dodd, pastor of the Little Church Around the Corner. The last rites were said in the presence of a small gathering of players who were McDermott's friends, at the home of his mother, Mrs. Annie M. McDermott, 139 North Hayworth avenue, Hollywood.

The services were simple, as requested by his relatives. Active and honorary pallbearers included Clarence Brown, Tully Marshall, Reginald Denny, Fred R. Lee, Moran, Donald Crisp, John Robertson, Norman Kerry, Anderson Randolph, Conrad Nagel, J. Stuart Blackton and Andrea De Borsula.

The body was cremated at the Hollywood Crematorium. It lay in state at the Le Roy Bagley funeral chapel Sunday, when scores from the screen colony and fans filed by the casket.

Born in Australia, McDermott, who was 47 years of age, began his stage career in London before coming to this country. He played his first picture part fourteen years ago with the old Edison company and remained in pictures until his death, which occurred early last Saturday morning at a Glendale hospital following a lingering illness.

Besides his mother, McDermott leaves a wife, Miss May McDermott, and distant relatives in Massachusetts.

## ASSAILANTS OF RELIGION UNDER FIRE

Presbyterian Moderator Hits Offending Writers in Talk to Methodists

"Attacks against organized religion by popular writers who discuss the breaking up of Protestantism and the decadence of the church," and who predict a new religion that will supplant Christianity, are founded on ignorance and prejudice," declared Dr. Hugh K. Walker, moderator of Presbyterian churches in the United States, in an address to Methodist ministers at their weekly meeting at the First Methodist Episcopal Church yesterday.

Rev. Alexander Hardie's appeal to the pastors to "stand by Rev. Bob Shuler" in his fight against the charge of publishing the notorious false oath of the Knights of Columbus was voted down on the grounds that "Mr. Shuler is abundantly able to take care of himself."

Predicting a sweeping world revival of religion in the near future, Dr. Walker said that signs of such a revival are to be noted in the co-operation of various denominations, the increasing spiritualization of science, the growth of church membership and the vast sums of money recently raised by the Methodists for world service.

# COURT SETS TRIAL DATE FOR SHULER

Pastor Charged in Libel Suit by Catholic Order Surrenders to Judge

Surrendering himself in court, Rev. R. P. (Bob) Shuler, pastor of the Trinity Methodist Church, yesterday appeared before Municipal Judge Reed to answer charges of criminal libel, filed against him Saturday by the Catholic Order of the Knights of the Ku Klux Klan.

Shuler requested that he be granted time to answer the charges against him. He said he had not had an opportunity to read the complaint and that he had not yet provided himself with counsel. Judge Reed in granting the request, assigned next Friday at 10 a. m. as the time for plea. At the request of Deputy City Prosecutor Margit, Shuler was committed to the County Jail.

Shuler, 48 years of age, was born in Virginia and has been in California for eight years. His residence was given as El Monte.

## SHULER ACCUSED ASKS FOR PROTECTION

Asserted threats against the life of Grant V. Jenkins, official of the Knights of Columbus and complaining witness in a criminal libel action against Rev. Bob Shuler, caused him to ask for police protection last night. Mr. Jenkins appeared at the Hollywood police station and showed Capt. Carmen five letters he had received during the day.

Some of the letters were typewritten and contained various threats. Most of them were misspelled and Capt. Carmen is inclined to believe they are from cranks.

Mr. Jenkins declared the letters had frightened his family and he stated that a police watch was maintained near his home. Police protection was promised. Capt. Carmen advised Mr. Jenkins to turn the letters over to the postal authorities.

## UNION LABOR PLOTS REVEALED

(Continued from First Page)

ment of men in the cleaning industry, the police assert. Plimier and Paul R. Mitchell, recording secretary of the union, were arrested and taken to the police station.

Plimier's confession implicated Mitchell in the actual destruction of clothing in the plant of Charles Schulman December 21, last. Mitchell was named as the man who paid Plimier for the work.

Judge Reed sentenced Plimier to six months in jail, the heaviest penalty for the offense set by the labor law. Mitchell pleaded not guilty and asked for a jury trial. He refused to be questioned by the detective and Plimier talked freely.

He furnished a list of prospective victims, marked, he said, by union leaders, and also gave names of owners of plants who he added had paid tribute to the extortionists.

Leut. Hynes and his squad occupied yesterday searching for the men named by Plimier. Admissions by several plant owners that they had contributed to the union labor leaders was obtained last night by Lieut. Hynes. He said he did not desire to reveal the names until arrests had been made of men named.

According to the police, the independent plant owners had been so terrorized by the operations of union bombers and acid-throwners that they are afraid to reveal all they know.

## Fugitive Taken in Wyoming Returned Here

Six months ago Leslie Allen leaped from a county truck at Second and Hill streets to escape serving a six months' sentence in County Road Camp No. 1, at Big Pine.

Yesterday Allen was returned to Los Angeles by Deputy Sheriff Wigington from Green River, Wyo., where he was recaptured a week ago.

Allen originally was sentenced to San Quentin prison for a term of one year to ten years for violation of the State Poison Act, but was granted six years' probation provided that he first serve six months in the county road camp.

Allen's escape, however, revokes his probation, according to the officers. He will be taken before a Superior court judge within the next few days, and ordered to San Quentin to serve his sentence, according to Wigington.

## MILLIONAIRE HOBO TO SPEAK TONIGHT

J. Eads How, "millionaire hobo," will be the principal speaker at a "migratory casual dis-employed conference" at Brotherhood Hall, 107 Marchessault street, tonight, where arrangements have been made by the Lady Hobos Auxiliary to serve a "jungle lunch," according to an announcement made yesterday.

The meeting is scheduled for 7 o'clock and the public is invited. No one is barred from making a speech on any subject, it was asserted by Mr. How. Scheduled speakers are Miss Marie Barry, Mary E. Lang and Robert Mett.

X-ray apparatus which may be carried in a suitcase was recently perfected in England.

THE SAFE ANTISEPTIC

## When Pain Comes

Two hours after eating

What many people call indigestion is really an excess of acid in the stomach. The stomach nerves have been overstimulated, and food sour. The corrective is an alkali, which neutralizes the acid. And the best alkali known to medical science is Phillips' Milk of Magnesia. It has remained the standard with physicians in the 50 years since its invention.

One spoonful of this harmless, tasteless alkali in water will neutralize instantly many times as much acid, and the symptoms disappear at once. You never use crude medicine when you learn the efficiency of this. Go to the bottle to try.

Be sure to get the genuine Milk of Magnesia prepared by Phillips. It contains 25c and 50c bottles. It has remained the standard with physicians in the 50 years since its invention.

### BEACH PLAY MAY BE FATAL

Clement Hoeking, 34 years of age, was in the General Hospital yesterday suffering from serious injuries to his spine and a possible skull fracture as a result of a friendly wrestling bout with a companion on the sands at Hermosa Beach Sunday afternoon, reports at the Sheriff's office stated.

Physicians at the hospital pronounced Hoeking's injuries so serious that they might cause his death. Capt. Bright, head of the Sheriff's homicide detail, yesterday said that no investigation of the affair will be made unless Hoeking dies.

The victim's home is at 1445 East Seventy-seventh Place, according to the report.

After the two men were arrested Campbell threatened to have the officers transferred to outlying districts, saying that he was influential with the police department and had been accorded protection in the past. It is charged.

Under the conspiracy charge, the defendants may be fined not more than \$5000 or imprisoned for not more than two years or both.

### Sister Seeks to Span Years and Get Estate

Although Mary Flynn of San Diego had not seen her sister, Mrs. Elizabeth Klemke, who died here a little more than a year ago, for more than forty years prior to the latter's death, she will make a fight in the courts here to obtain title to the \$7000 estate left by Mrs. Klemke.

This was indicated yesterday when a contest was filed by the San Diego woman in the Probate Court in which she asserts that when Mrs. Klemke left all of her property to George C. Warren and his wife Ethel, both local high school teachers, she was of unsound mind.

The Warrens, represented by Attorney K. C. Wiseman, during the latter years of the life of Mrs. Klemke, befriended her in the belief she was penniless. They went away and when they returned several months ago they found she had left a will in which they were bequeathed all of her estate.

### CRAYER SELECTS NIX FOR OFFICE

Legion Official Chosen for City Prosecutor

Appointment Up to Council for Confirmation

Hint of Political Future Seen in Move

Lloyd S. Nix, commander of the County Council of the American Legion, was named yesterday by Mayor Crayer to succeed Dr. E. J. Lickley as City Prosecutor. Dr. Lickley tendered his resignation yesterday in order to accept his appointment by Gov. Young as a judge of the Municipal Court. The nomination of Mr. Nix will come before the City Council today for confirmation.

In naming Mr. Nix Mayor Crayer disregarded the recommendation of Dr. Lickley that his chief assistant, William V. Krowl, be appointed to succeed him. The Mayor, in a statement, stressed the fact that Mr. Nix is his personal choice. These two circumstances led political observers yesterday to the conclusion that in naming a prominent Legion officer to a post in his administration shortly before the municipal elections the Mayor virtually has indicated an intention to stand for re-election.

Mr. Nix is my personal choice for the position heretofore held by Dr. Lickley and I consider myself fortunate in being able to obtain for the city the services of such a high-class lawyer.

Mr. Nix is a man of character and ability, an ex-soldier with a soldier's sense of duty, and pledges himself to the faithful, energetic and impartial enforcement of the law.

Before election to his present Legion office Mr. Nix was commander of San Pedro Post, No. 68, of the American Legion. The county council, of which he is now commander, comprises eighty-seven posts. He has a distinguished war record. As a sergeant in the Three Hundred Sixty-fourth Infantry of the Ninety-first Division he spent eleven months overseas and in addition to the Belgian Croix de Guerre and the Gold Cross of the Kingdom of Belgium, the highest military decoration awarded by that nation, he received a citation for heroism from Gen. Pershing.

On the occasion of the visit to this city of King Albert and Queen Elizabeth of Belgium in 1921, Mr. Nix was one of the four veterans chosen to act as a personal body-guard to the royal couple.

Mr. Nix has been practicing law in this city since 1921, having graduated from the law school of the University of Southern California in 1920. At present his office is at 1214 Sixth street in San Pedro, in which community he lives at 1235 Sixteenth street with his wife and two children. He is 35 years of age and was born in Fremont, Cal. He came to this city in 1915 after receiving his prelegal education at Colorado College.

In his senior year at the University of Southern California Mr. Nix was elected to membership in the Skull and Dagger Fraternity, an honor society. He is also a member of the Sigma Nu Phi Fraternity, the Al Malakka Temple of the Shrine and of San Pedro Lodge, No. 996, of the B.P.O.E.

Displays Put in for Convention of Metal Men

Hundreds of displays, representing the progress made by metals in the last few score years, yesterday began going into place at the Shrine Civic Auditorium, where the Western Metal Congress' main events will begin next Monday, to run for five days.

One of the displays, calculated to excite interest, is a depiction of the "high spots" development of better metals from the day when primitive man hacked off pieces of meteoric iron down to the present age of finely tempered steel.

Shaping machines which cut two-inch steel with a single stroke; tensile testing apparatus which imposes a fifty-ton strain on metals suspected of weakness; sclerometers, which give cast-iron three-ton thumps to ascertain their resistance to sudden shocks, and demonstrations of the welding of aluminum, declared the latest development in the aluminum industry, all betoken the steps being taken for an age of better metallic products.

The exhibition is a side line to the congress of metallurgical scientists, expected to draw 2500 authorities from all parts of this country. W. H. Eisenman, secretary of the American Society of Cleveland, declared the congress will be one of the most important factors in the advancement of the metal industry ever given in this country.

### Actress Denies Story of Bow Being Brother

Jack Bow purchased his liberty property.

Bow was taken into custody late Saturday night in an apartment at 504 North Harper avenue by a squad of officers sent out from the Hollywood police station in response to calls from residents in the neighborhood that sounds of a wild party punctuated by revolver shots was disturbing their peace. He was intoxicated, the officers stated, and offered no explanation of the asserted shooting except to say that he is Clara Bow's brother. Investigation at Paramount studios discredited this statement. Miss Bow denied that Jack Bow is her brother.

#### Wilcy Moore, Yank Hurler, in Comeback

NEW YORK, Jan. 7. (AP)—Wilcy Moore, New York Yankees pitcher, who led the American League in effectiveness in 1927, but was so handicapped by a sore arm last year that his usefulness to the world champions was seriously impaired, believes that his arm has been restored by rest. The pitcher has written from his Holles (Okla.) home to Secretary E. G. Barrow that he is "as fit as a fiddle."

Moore, who is on the voluntary retired list, will apply to President E. S. Barnard of the American League for reinstatement and will go to Hot Springs, Ark., February 1 for a course of baths and mountain climbing.

#### Emanuel Goes East Today to Take on Dillon

#### BY KAY OWE

Tommy Loughran, light-heavyweight boxing champion, will meet Armand Emanuel, San Francisco lawyer-fighter, at the Olympic on the night of February 12, according to an announcement made yesterday by the Olympic management. The match, which has been hanging fire for several days, was made yesterday when Joe Smith and Bob Levy, managers of Loughran, wired from New York accepting terms.

The house will be scaled from \$2 to \$5 for the struggle. It will be a non-title affair, both Loughran and Emanuel being slated to come in over the 175-pound limit. The scrap will be ten rounds to a decision.

For a time Olympic officials considered holding the bout outdoors, but it was finally decided not to take the risk of running into bad weather and possible postponements. Scaled the Olympic from \$2 to \$5 means a gate of around \$35,000.

Emanuel boxed Loughran in New York about a year ago. The Jewish boy subdued Jimmy Slattery on short notice and gave the champion a terrible battle. Although Tommy was given the official verdict there were plenty of New York fighters who figured Emanuel had the edge. Armand weighed around 175 for that fight, and will be almost ten pounds heavier for next month's brawl.

Emanuel leaves this morning at 11 o'clock for Minneapolis, where he is slated to fight Harry Dillon of Canada a week from Friday night.

Loughran, according to the wire from his managers, will arrive here around February 1, to do two weeks of training right on the ground for his scrap with Emanuel.

#### Atlantans Give Returning Heroes Wild Welcome

ATLANTA, Jan. 7. (Exclusive)—Georgia Tech received the welcome of world champions tonight when the Golden Tornado returned to Atlanta after their successful invasion of the West which brought them victory over California, 8 to 7, in the annual Rose Bowl event.

The welcome tonight was only a part of the program mapped out by the special committee of citizens named by Mayor I. N. Ragsdale with the approval of City Council.

Chairman Lowry Arnold said that the next step of the people of Atlanta in evincing their appreciation of the victory won by Tech and the national recognition

#### TIE FOR GOLFING HONORS

Henry Cuici, Bridgeport, Ct., and Billy Burke, Blind Brook Country Club, Port Chester, N. Y., tied for first honors in the first annual \$10,000 open at Agua Caliente yesterday. Both came home in 49 over the tricky pitch-and-putt course, finishing well under par, which is 54, on Wirt G. Bowman's sporty layout. Both players are scheduled to play tomorrow in the qualifying round of the Los Angeles \$10,000 open.

#### Late Promoter Predicted Title Bout for Former Champion; Ranked Leaders at All Weights

NEW YORK, Jan. 7. (AP)—Tex Rickard's last contribution to boxing literature is his ranking list for 1928, coupled with what he planned to be the definite announcement of Jack Dempsey's comeback this year. It is contained in a copyrighted story written by the promoter for the issue of the Ring, monthly boxing publication, appearing this Friday.

Rickard's rankings are especially significant, as giving the promoter's final analysis of the game he developed so extensively. Equally interesting is his forecast of Dempsey's plans, even though they are now in doubt as a result of the promoter's death.

The promoter ranked the outstanding heavyweights as follows: first, Jack Dempsey, who would fight once, either in August or September, as a finalist in the elimination tournament that gets under way with a battle between Jack Sharkey and Young Stribling at Miami Beach, Fla., February 24.

JACK GREATEST

"Jack Dempsey will come back this year," Tex wrote. "One cannot think of Dempsey except in terms of greatness and therefore in his case inactivity last year must be disregarded in the rating of the world's leading heavyweights. He is greater than any fighter now backing in the limelight and striving for the title left vacant by Gene Tunney."

"The return of Dempsey will

# Hollywood and Manual Fives in Feature Clash as City League Cage Races Begin

## SHEIK QUINTET FAVORED TODAY

Movie City Squad's Gym is Scene of Struggle

Lincoln Doped to Win Over Polytechnic Cagers

Strong L. A. High Team Opens Against Franklin

BY BOB RAY  
City League basketball squads begin what is expected to be a hectic six-week season today, three games being played at the same time. The opening round of cage play, Manual Arts and Hollywood, and local casaba flipping ranks for the lot these teams may have in the Movie City gymnasium for the feature attraction of the curtain-raising program.

Another important struggle billed for this afternoon takes place at Polytechnic, where Vero Brown and his doughty Mechanic Five will attempt to put a crimp in the title hopes of Coach Haggan Van Pelt's Lincoln Tigers. The third game of the day figures to result in an easy victory for Coach Haggan's powerful L. A. High Romans, who journey to Franklin to take on the Panther quintet, which is rated as "not so hot."

Returning to the Manual-Hollywood embroglio, Coach Van Pelt's squad probably will take the floor slightly fatigued over their Toller trials. The Hollywoods have won the City League crown for the past three seasons and can always be counted on to throw a strong squad into the race as long as Van Pelt is coaching them. They had a couple of veterans, Capt. Ted Lempe, stellar guard, and Bobby Forbes, a sharp-shooting forward, as a nucleus for this year's team and has succeeded in rounding the Hollywoods into a capable club during the past few weeks. The team started off slowly but have improved greatly and recently defeated the U.C.L.A. fresh.

Over at Manual Jim Hewitt has taken over the basketball job left vacant when Mott Blair took a position with the Los Angeles school system as athletic director. The Tigers have a strong forward trio of Sturm and Piper, forward and Finch, center, on deck from last year and will rest with them three to produce a championship to upset the Hollywood outfit.

Although Lincoln figures to trim Polytechnic, the Mechanic will have the advantage of playing on their home court, which is quite an advantage because of the peculiarities of the Poly gym, so the game is likely to be an exciting affair. Van Pelt has a strong movie quintet composed of Pandora and Hagen, forwards; Gutierez, center; and O'Connell and Swamy, guards. If the Tigers are "hot" they should win easily, but they will probably be troubled by Poly's strong defense. Capt. John Turney, Swamy and Hagen are the mainstays of the Mechanic crew.

Van Pelt said last night that he might be forced to keep Gutierez from starting in a character of horse, and send Alwood, a letter man, in at center. Gutierez is the heavy Lincoln power and with him out the Tigers would be considerably weakened.

Franklin isn't expected to furnish L. A. High much opposition for the Romanesque cage war, but the team is expected to be a contender for the championship. Both Santa Monica and Long Beach, 1928 Southern California champions, are runners-up, respectively, have been thumped by the Romans during the practice season.

Jefferson draws a bye today. All of today's games will be preceded by lightweight games. The second round of City League cage play takes place Friday.

## THORNS CHEER JACKET HEROES

(Continued from First Page)  
At Southern and Georgia football ability that followed would be topped out in collaboration with Dr. M. L. Brittain, whose return from the States has given a well-earned pending completion of details.

Present plans call for a banquet and other public testimonials for the city, he said.

Crowds of admirers rushed Coach Alexander and the members of the Tech team as they appeared in the terminal station after alighting from their train. The coach was almost mobbed.

Photographers were filling the air with smoke from their cameras and bands on every side were playing "Hambing Wreck from Georgia Tech."

Madison reigned at every point. At the station and on the streets where the team was to pass in parade it was estimated that at least 60,000 persons joined in the celebration.

As the players finally reached the plane on their way to enter their automobiles they were given a welcome in a display of pageantry in which Mrs. Winifred Stuart Ramsey took the role of Miss Atlanta.

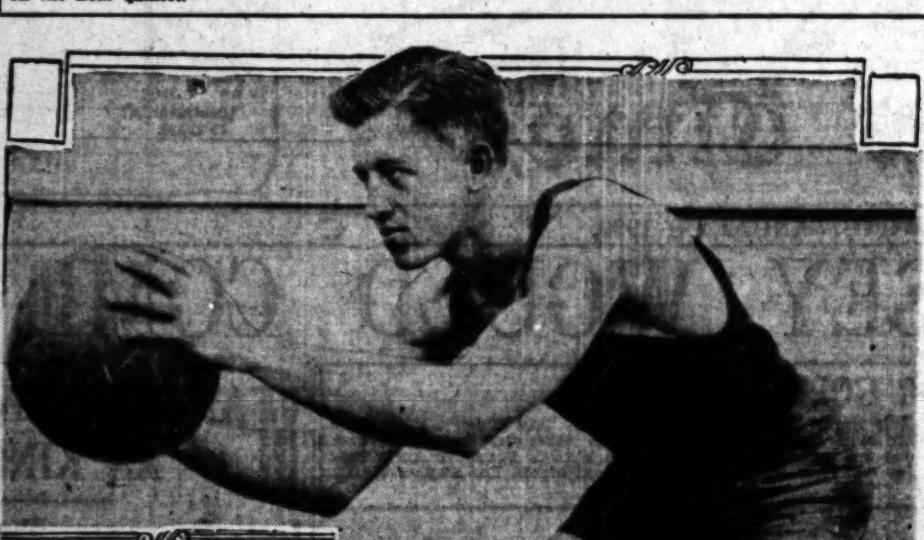

Other passengers seated were entitled "Colonel Georgia" and "Uncle Sam."

The One Hundred and Twenty-second National Guard and the 28th and 38th Infantry, as well as the police band and others took part in the parade.

SID TERRIS WINS BOAT  
NEW YORK, Jan. 7. (AP)—Sid Terris, one-time famed "Ghetto Ghost" and boxer, today won a boat race in New York, in a fast ten-minute bout at the St. Nicholas Athletic club.

## GOLFERS BEGIN PLAY TOMORROW

(Continued from First Page)  
consider for the crown. Dielgel has not entered a medal play event since last summer. He won the national P.G.A. title at match play and has spent the winter playing exhibition matches and teaching over Southern California fairways.

So frequent were his public appearances that on the eve of the San Diego open the Flying Dutchman was considered more of a "dark horse" as far as the Los Angeles open was concerned. But at Santa Vinta he demonstrated that he will rank with Hagen and Horton Smith as likely winners of the important medal-play title.

MacDonald Smith, 1928 Los Angeles open champion, has become the center of speculation. The Garouiste Scot, by refusing to enter any of the midwinter tournaments leading up to the Los Angeles open, has left everybody guessing. At that is known for certain is that he will be well rested and on edge for the battle, whether his iron is hot again this year is a matter of conjecture. His 67 at the Lakeland course in San Francisco a few weeks ago indicates that his game has not suffered by a vacation from the tournaments.

HAGEN VS. SMITH  
Walter Hagen as a 2-to-1 shot, and Horton Smith as the Halg's shadow seem to be the strongest favorites to duplicate the wins which each has scored three times in the past two months. In the Oregon open, Hagen finished one stroke better than Horton Smith. At Catalina, the postcard Joplin (Mac) pro was the event from the Halg by the narrow margin of one stroke. That left them even. At Long Beach, Hagen won with a 276, while Smith finished third with 282, which left Hagen six strokes to the good. The next and last time that they met was at San Diego. Horton took a second with 283; Hagen dropped to seventh with a 286—and the youngster had got back his six strokes!

So the Los Angeles open promises to be the decisive contest between the British open champion and the lad who already is regarded as the heir apparent to many of Sir Walter's crowns. It will be made more interesting by the presence of Leo Dielgel and a trio of other top-notchers who threaten to knock over the cage bucket. Tommy Armour, Al Espinosa and George Von Elm.

The first fourteen and tie at each course daily for the Santa Vinta for the six courses are as follows:

CHUCKLES from LIFE

He: I swear I'll love you always!  
She: How monotonous!

THE GUMPS

THE STORY THUS FAR —

ON THE NIGHT OF TUES. SEPT. 18-1928 THE SUM OF \$10,000.00 CONTRIBUTED BY ANDY GUMP TO PROMOTE TOM CARR'S PERPETUAL MOTION INVENTION IS STOLEN FROM THE SAFE OF GUMP AND CARR. ONLY TWO PERSONS ARE ACQUAINTED WITH THE COMBINATION OF THE SAFE — THE PROPRIETORS —

CORRECTLY — NOW WE ARE THE ONLY TWO PEOPLE IN THE WORLD WHO KNOW THE COMBINATION THAT WILL OPEN THE SAFE

RIGHT-17 LEFT-31 RIGHT-9 — THERE ARE THREE PEOPLE IN THE WORLD WHO KNOW THIS PRECIOUS SECRET

WITNESS TELL OF SEEING CARR LEAVE THE OFFICE ON THE NIGHT OF THE ROBBERY — MARY GOLD WHOM TOM CARR IS ABOUT TO MARRY — WARNS HER SWEETHEART THAT HE IS SUSPECTED OF THE THEFT AND ABOUT TO BE ARRESTED — CARR BECOMES A FUGITIVE FROM THE LAW —

IT'S ALL THERE — \$10,000.00 — ONLY CARR AND GUMP KNOW THE COMBINATION — TOM CARR WILL HAVE A FINE TIME EXPLAINING WHERE THE MONEY WENT

FOR WEEKS HE WANDERS ABOUT THE COUNTRY SUFFERING ALL THE PANGS OF A HUNTED ANIMAL — FINALLY THOUGHTS OF MARY DRIVE HIM TO DISTRACTION — NOT TO BE ABLE TO SEE MARY — DEPRIVED OF ANY WORD FROM HER — THESE HARDSHIPS PROVE TOO MUCH FOR THIS WEARY WANDERER — AT THE RISK OF HIS LIBERTY HE RETURNS FOR JUST ONE GLIMPSE OF HIS BELOVED — HE IS AWARDED THAT GLIMPSE

THE WALLET \$10,000

Walt Gets a Hearty Laugh

Central American revolution collapses with news of American heavyweight earnings.

I CAN'T GO TO SLEEP BUT THANK GOODNESS, I'M NOT WORRYING LIKE I WAS A WEEK OR SO AGO. RUBBER KEYHOLE IS UP TO 25 AND I'M JUST ABOUT A THOUSAND AHEAD!

THAT SHOWS HOW THINGS WORK OUT FOR THE BETTER. I SIGNED THAT NOTE FOR JOE GUNK FOR \$100 AND HAD TO BORROW FROM AVERY TO PAY IT. IF IT HADN'T BEEN FOR THAT I WOULDN'T HAVE BOUGHT STOCK.

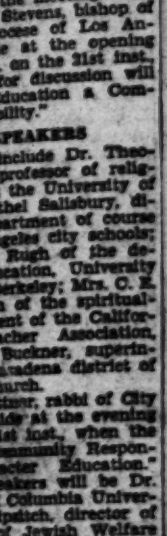

GOLLY, IT'S NICE TO THINK OF ALL THAT MONEY AHEAD — AND GETTING BIGGER AND BETTER ALL THE TIME!

WALT, I SAW A FINE KITCHEN MIXER FOR \$4.25 YESTERDAY BUT I'D HAVE TO PAY CASH. DON'T YOU THINK I COULD GET IT?

GEE, PHYLLIS, I HAVEN'T GOT \$4.25 IN CASH THAT HASN'T BEEN SPENT AT LEAST TWICE.

HA! HA! THAT'S GOOD! A THOUSAND ANY TIME AND I SCARE UP \$4.25 FINANCIAL!

**Field Director Reports Many Groups Planning to Attend Performance**

Arrangements for special parties to attend the Mission Play at San Gabriel are being handled by L. H. Boydston, newly appointed field director. Mr. Boydston has established Los Angeles headquarters for the Mission Play at 307 Chamber of Commerce Building. He reports that many reservations are being made by organizations, clubs and civic bodies throughout Southern California to take advantage of special party rates.

Through the co-operation of the Los Angeles Chamber of Commerce Mr. Boydston also is assisting many committees in planning their program for coming conventions. A day at San Gabriel includes a tour of the old mission, lunch or supper under the historic mother grapevine, a visit to the ancient art galleries now being restored and remodeled in connection with the erection of the modern Craft Shops, and then the Mission Play, with its wealth of glamour, presented by a talented cast of more than 100 artists, headed by R. D. MacLean as Gray Junipero Serra.

# Southland Devotees of Winter Sports Throng County's Big Pines Camp

All Previous Attendance Records at Big Pines Recreational Camp During the Winter Season Have Been Broken in Past Two Weeks, according to figures given out yesterday by officials of the resort. Thousands of devotees of winter sports are flocking to the county-owned camp, which is one of California's noted all-year pleasure resorts, and are enjoying every form of cold weather sport in the picturesque setting. Two additional slides have been constructed, giving the camp three 1000-foot chutes. Every possible facility for making the visitor comfortable is installed. The photos above, brought down from the resort yesterday, depict activities of visitors leaving inn for day's sport; middle, a spill on the ski run, and right, awaiting their turns at the top of a toboggan slide.

## HIGH LIGHTS IN HISTORY 1232

THE CAUSES THAT DROVE THE NATIONS OF EUROPE TO WAR IN 1914 WERE MANY AND COMPLEX. AGGRESSIVE NATIONALISM, MILITARISM, COMMERCIAL RIVALRY AND SECRET DIPLOMACY HELPED FAN THE SPARK INTO FLAMES.

CAMOUFLAGED IN THE DRESS OF MODERN DEMOCRACY, STALKED THE DESIRE FOR CONQUEST, AS OLD AS TIME, AS STRONG AS IN THE DAYS OF ALEXANDER AND JULIUS CAESAR.

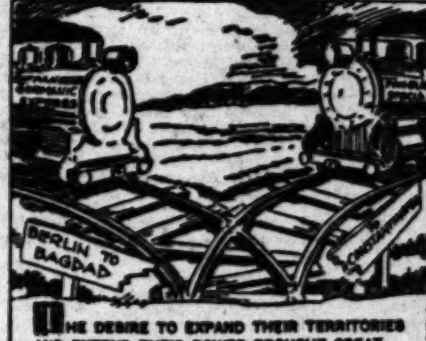

NATIONS SOUGHT TO WIN "PLACES IN THE SUN" FOR THEMSELVES BY COMMERCIAL AND DIPLOMATIC STRATEGY, BACKED BY VEILED THREATS OF ARMED FORCE.

THEY ALLIED THEMSELVES WITH OTHER NATIONS TO OFFSET THE STRENGTH OF THEIR RIVALS. IN THE 20TH CENTURY TWO GREAT ALLIANCES, VIED WITH ONE ANOTHER FOR SUPREMACY.

ONE OF THESE WAS THE "ENTENTE CORDIALE" COMPOSED OF FRANCE, RUSSIA AND ENGLAND. THE OTHER WAS THE "TRIPLE ALLIANCE," WHOSE MEMBERS WERE GERMANY, AUSTRIA-HUNGARY AND ITALY. EACH OF THESE COMBINATIONS WAS TOO STRONG TO BE ATTACKED BY THE OTHER. THIS BALANCE OF POWER KEPT EUROPE AT PEACE, BUT IT WAS AN ARMED PEACE.

## The Story of the World War II—Rival Alliances in Europe

THE DESIRE TO EXPAND THEIR TERRITORIES AND EXTEND THEIR POWER BROUGHT GREAT NATIONS TO THE VERGE OF CONFLICT. GERMANY AND AUSTRIA SCHEMED TO SPREAD THEIR INFLUENCE THROUGH THE BALKANS TO TURKEY AND PERSIA. AT THE SAME TIME RUSSIA WAS SEEKING TO ESTABLISH THE SUPREMACY OF THE SLAV PEOPLES SOUTH TO CONSTANTINOPLE AND WEST TO THE ADRIATIC. A COLLISION BETWEEN THESE TWO PROJECTS WAS INEVITABLE.

# BURGLARS TRUCK AWAY CIGARETTES

Vending Company Loses Goods Valued at \$4650; Other Robberies Reported

Burglars who broke into the storeroom of the Rowe Vending Machine Company, 2514 South Grand avenue, Saturday night, got \$4650 worth of cigarettes which they carried off in a truck, according to a report made to the police yesterday. The truck was stolen from a garage in the rear of the building and belongs to the Coast Enamel and Plating Company. It was found abandoned yesterday in front of 1350 East Forty-sixth street, the police said, and according to witnesses, had been there since 7 p.m. Saturday.

Officials of the Rowe company said they did not know where the truck went, but that if the Forty-sixth-street witnesses are accurate in fixing the time as to the abandoning of the truck, the robbery must have been committed immediately after the office closed.

Burglars also entered the Wilkinson Jewelry Company's store at 814 South Broadway early yesterday morning and escaped with a number of rings set with semiprecious stones. The robbers broke the front window to enter the store.

Mrs. Jean Ibert, proprietor of a restaurant at 3070 West Seventh street, Vermont avenue, reported to the police yesterday that burglars who broke into the restaurant over the week-end, took \$650 in currency and a check for \$10.53 which was hidden under a counter in a bag.

# Coupe Crashes Into Owl Flyer; One Man Dead

Harold D. Roebuck, 36 years of age, of 12201 Ventura Boulevard, died in the General Hospital late last night and Milo C. Walker, 43, of Owensmouth received probably fatal injuries as the result of a crashing into the Southern Pacific's Owl Flyer train at Reseda Boulevard crossing in Reseda earlier in the evening.

Walker was reported by investigating officers to have been at the wheel of the light coupe in which the two were riding. They were thrown from the car, which today smashed, when two men were en route to a lodge meeting in San Fernando.

A fractured skull was said by hospital surgeons to have caused Roebuck's death. Walker also suffered a fractured skull and fractures of both legs. The men were treated at the Van Nuys Receiving Hospital before being rushed to the General Hospital.

Roebuck was a rancher and Walker is reported to be the owner of an automobile agency in Owensmouth.

# Two Booked in Auto Mishaps

Otto D. Bushnell, 40 years of age, of 9202 South Denker street, was arrested on suspicion of driving while drunk, following an accident at Eleventh and Main streets. According to reports, Bushnell knocked down Mrs. A. G. Darcy, 301 West 103rd street, who was standing in a safety zone. He drove on after the accident, but was arrested when he was seen driving a car in front of 1851 South Hope street. He was arrested by Deputy Sheriff Hastings and Patrolman Shannon.

Smalley was taken to the Hollenbeck Hospital for questioning and later released.

# MEXICO AIR LINE OPENS THIS WEEK

Maddux Company Getting New Airships to Maintain International Service

Air transport service between Los Angeles and Mexico City is to be inaugurated this week following the arrival today of the first of a fleet of fast airplanes from the Ford factory in Detroit. The new plane was piloted by Lieut. Dan W. Tomlin, who is famous as the leader of the "Three Sea Hawks" who thrilled thousands during the Los Angeles air meet last summer.

The new plane was built for the Maddux Air Lines. It is a Ford trimotor, sixteen-place model with Pratt Whitney Vasp motor. Four more planes of the same type have been ordered. The second of the group will be brought from Detroit Saturday by Larry Fria, chief pilot of the Maddux Air Lines.

According to the air transport company a regular service is to be maintained between Mexico City and Los Angeles. All of the new planes, however, will not be used in this service. The new service will be the longest international passenger line in the world. Arrangements have been completed at Mexico City for a terminal, but the exact schedule has not been decided upon.

Lieut. Tomlin, who recently obtained his release from the United States Navy, has been made vice-president of the Maddux Air Lines. He will be in charge of operations.

# FUNERAL OF MRS. CONDIT TO BE TODAY

Was First White Woman in Wyoming, and Cousin of President Hayes

The funeral of Mrs. Mary Condit, who died Saturday evening at the age of 106 years and 4 months, will take place this morning at 11 o'clock at the E. Clair Overholser funeral parlor, 1236 South Grand avenue, after which her body will be interred in Inglewood Park Cemetery.

Mrs. Condit was born October 8, 1823, at Painted Post, N. Y. As the wife of a Civil War captain, the first white woman to live in Wyoming, a cousin and close friend of former President Hayes and a friend of the Indian whose picture now adorns the American 5-cent piece, she represented an interesting link with the past.

Her husband, Capt. Elias Condit, was a West Point and Princeton University graduate and a veteran of the Civil War. As a sea captain he was around the world four times.

Mrs. Condit died in 1928. Their only surviving child is a son, Charles W. Condit of 123 East Sixty-fifth street, with whom Mrs. Condit made her home.

Mrs. Condit, bright and active until her actual passing, died while visiting a grand-daughter, Mrs. Emma Newman.

Beats her son Charles, who is a boat inspector for the Los Angeles City Health Department in San Pedro, she leaves four grandchildren, ten great-grandchildren and a great-great-grandchild.

# Beating Charge Against Teacher Fails of Proof

Charges that a severe beating was administered by William E. McGorray, principal of the Alvarado school for problem children, upon Frank Johnson, a 9-year-old pupil, were not substantiated by physicians and teachers who examined the boy.

The whipping was administered in punishment for disobedience and foul language, it was declared by school authorities. Mrs. Clara Akers, mother of the boy, said he had returned from school with welts across his forehead and cheek and bruises on his body that remained for three weeks.

Mrs. Susan M. Dorsey, Superintendent of Schools, made a statement that Dr. Swenson, the physician, and Dr. Laura B. Bennett, one of his assistants, had examined the boy three days after the whipping, and while there was some slight discoloration of the thigh and upper right eyelid, there were no signs of swelling or severe injury.

This statement was substantiated by two teachers, who were present when the punishment was administered, and by John B. Monlux, deputy superintendent, who visited the boy at the time Dr. Lohrman examined him.

Mrs. Dorsey pointed out that under the law teachers are not prohibited from applying corporal punishment to unruly students. This view was concurred in by members of the board, who deplored the necessity for whipping, but believed the boy was not severely beaten and that the bruise near the eye was not received then, but through some other agency than that of the principal.

# Colleen Moore and McCormick Buy New Home

Through the purchase yesterday of a magnificent home still in the course of construction, Colleen Moore became one of the first motion picture stars to have a residence in the home.

Colleen Moore and her husband, John McCormick, are the new owners of a beautiful estate in the Bel-Air district, including a half-completed Spanish mansion. Although it was being built as a home for C. F. Stewart of Chicago, the house so exactly meets the tastes of Colleen and McCormick that they persuaded Stewart to sell. They will, however, build many of their own ideas into the home.

It will be of fourteen rooms when completed and has a three-acre site on St. Pierre Road, a short distance north of Beverly Boulevard. Additional plans were drawn for a miniature theater for the showing of talks.

The deal was handled through Frank Orsatti and is reported to involve approximately \$250,000. The home was designed by Theodore J. Scott, architect, and is being constructed by Clarence Cox, contractor. It is expected to be finished in May.

Columbia Network Will Offer New Piece Tonight

"Our Little Dream" Title of Latest Composition

Composer to Hear Program from San Diego

BY DR. RALPH L. POWER

"Our Little Dream," by Charles Wolford Cadman, will be sung by Olive Kline, well-known radio star, at 7 o'clock tonight (Pacific time) from New York over the Columbia broadcasting system of forty-two stations, according to announcement from that organization.

The new Cadman number, the announcement states, is to be offered tonight for the first time in public, either via radio or before a visible audience. Cadman's "Rivers" was given its first presentation over KJZZ, Beverly Hills, a few weeks ago but it is believed the latest number is a somewhat more elaborate composition.

KJZZ, Hollywood, and KYA, San Francisco, are two of the stations on the coast-to-coast network scheduled to carry the program, say Columbia officials.

Other features on the hour will include the singing ensemble, the augmented orchestra, male quartet, the chorus, and tenor and baritone soloists.

Numbers will range from the Elmsky-Koskoff "Hymn to the Sun," and Tchaikovsky's "Movement from Symphony No. 4" to a symphonic jazz arrangement of "California," a fantasy on "Among My Souvenirs."

There will be special significance to the western audience in the "Our Little Dream." The composer, who recently suffered a slight nervous breakdown, was said by his associ-

Unlike many other well-known composers, Mr. Cadman always has been friendly to broadcast. In the days when "The Times" owned KHJ he broadcast from that station many times. He since has been heard on network events although his public appearances during the past two years have not been many.

This California composer often has expressed the belief that radio presentations have helped his com-

# VICTIM HIT BY GUN FIRE MAY NOT DIE

Truck Driver for Paper Company Held in Jail as Official's Assassin

Rallying from the effects of three bullet wounds inflicted, according to police, by an employee over a personal grievance, Vincent C. Collier, 44 years of age, assistant purchasing agent at Blake, Moffitt & Towne, paper dealers, was declared late yesterday to have a good chance of recovery. The injured man was resting easily at the Georgia-Street Receiving Hospital following an operation.

Reginald J. Coulter, 31, a truck driver for the company, is in the City Jail on a charge of assault with a deadly weapon with intent to commit murder. In a statement said to have been volunteered to Detective Lieutenants Hickey and Shannon, Coulter admitted shooting Collier because the latter had "persecuted him."

The shooting took place in the delivery room at 349 South Los Angeles street about 10 a.m. yesterday. Coulter, according to witnesses, walked into the office and, without preliminary argument, fired three shots point blank at Collier. Half a score of other employees rushed in, disarmed Coulter and aided in getting Collier medical attention.

Collier, because of his condition, was unable to give a coherent explanation of the affair. From information given by fellow-employees, Coulter is believed to have been suffering from "hallucinations of persecution."

Collier's home is at 5727 Baring Cross. He has a wife and grown son, Vincent Jr. Coulter is not married. It is stated, and resides at the El Rey Hotel. He has been employed at the paper company for six years.

BY GRACE KINGSLEY

Negotiations for the purchase of Margery H. Lawrence's dramatic story, "A Woman Who Needed Killing," were completed yesterday, and the story will be filmed by Paramount as a 100 per cent dialogue motion picture production.

This work was contained in telegraphic advice received at the Hollywood studios from Jesse L. Lasky. The picture will be directed by Rowland V. Lee.

Baclanova will have the title role, while Olive Brook will play the heroine's husband. Neil Hamilton will play Bobby Gregory.

John Farrow has started working on the adaptation of the story.

Charlie Ruggles in "It's a Wonderful Life," That well-known Broadway comedian, Charles Ruggles, who began his professional cut-up career with the old Morosco stock company, is coming into the talking pictures. Ruggles has been signed by Paramount for an important role in "Gentleman of the Press," the talking film version of the Broadway newspaper play to be photographed and recorded at Paramount's Long Island studios.

Ruggles at present is the star comedian of "Rainbow," in New York.

The picture is to be directed by Millard Webb, who lately left for the East.

Ruggles is to play the drunken reporter in the story, while Walter Huston, Broadway stage favorite, has been cast as Wick Ross, the reporter who simply couldn't quit the newspaper game.

An eminent cast of New York

actors will appear in the picture, including Norman Foster, Lawrence Leale, Katherine Francis, Betty Lawford, George Barbier, Victor Kilian, Charles Slattery, Joseph M. Noddy, Charles M. Bessy, Leslie Hunt, Ralph Murphy and Mary Williams.

# LOWELL HUGHES HAS LEAD WITH CHANEY

There is one juvenile in pictures who seems never to have a day's vacation. That juvenile is Lloyd Hughes. He has been going from one picture to another as fast as possible, sometimes appearing in two at a time, in a manner to age any juvenile.

Now Hughes has been signed by Metro-Goldwyn-Mayer to play the leading youth role with Chaney's current starring vehicle, "Where East Is East."

The picture has just been started in a gorgeous set which covers several acres of ground, under direction of Tod Browning.

By the way, was putting an elephant through its paces yesterday with huge success.

Harry Gribbon With Sennett  
Harry Gribbon, who started his picture career with Mack Sennett, has returned to that fold.

The comedian, who was formerly of the stage, is starring in a Sennett all-talking Photophone comedy not yet titled, written by Sennett and being personally directed by the producer.

It was while playing in Channing Pollock and Ronald Wolf's musical comedy, "The Red Widow," at the Morosco that Gribbon was first seen by Sennett, who decided to make a picture comedian of him. Gribbon has been in pictures ever since, except for an occasional trip into vaudeville.

George Hackathorne Signs  
First National officials have decided that nobody could possibly play the role of Niki in "The Squall" as satisfactorily as can George Hackathorne, and very logically therefore they have signed him for the important part in this talking picture.

Others in roles are Carroll Nye, Myrna Loy, Zasu Pitts, Alice Joyce and Richard Tucker. Alexander Korda will direct.

As soon as Hackathorne finishes in "The Squall" he will move over to P.B.O. studios, where he will take up an important role for Eric Von Stroheim in "Queen Kelly," starring Gloria Swanson.

Hackathorne has just finished a featured role in "Tiffany-Glenn's 'The Miracle'."

Other players just signed for "The Squall" are Nicholas Soussana and Dale Fuller.

Mary Duncan's Triple Role  
While Mary Duncan has nominally been assigned to but one role in the Fox production of "Through Different Eyes," the fact remains that she will virtually play three roles.

Miss Duncan as the heroine of the movie, the heroine of the movie, the heroine of the movie.

She will play her role in three different ways, she will be seen as three different characters in the story. This will give her acting abilities full play.

Billie Joy Writes Song  
Billie Joy, brother of the famous Letourie, is likely to become famous himself in his own right. He has just written a song called "She's My Sister's Baby," dedicated to little Letourie II. Letourie's Joy's chief "Pet O'Reilly" is going to broadcast the song via radio.

Two noted European directors have been engaged to stage and direct Viennese operas in America.

H E TORE UP HER CAR, SHE SAYS

Wife Declares Her Husband Became Angry and Ripped Off Fenders and Top

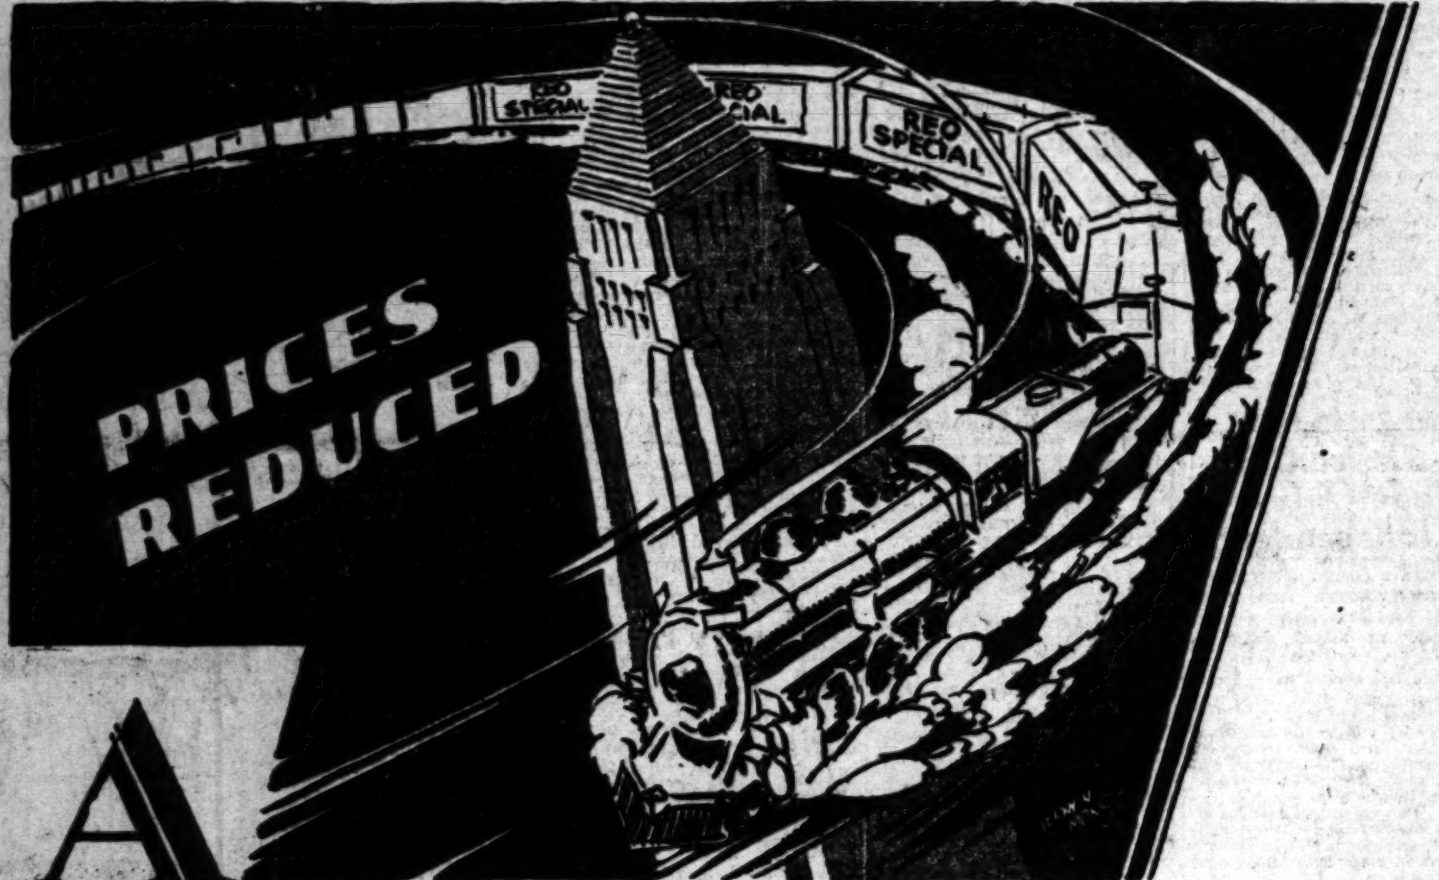

"Love me, love my dog" was changed to "love me, love my automobile" in the case of Mrs. Leah McWreath, seeking a divorce from Frank McWreath, who was haled before Superior Judge Rosenkrans yesterday to contribute to his wife's support pending the outcome of her suit.

Mrs. McWreath said McWreath gave her an automobile six months after they were married.

One day, she said, he grew angry and tore one of the fenders off the car; several days later he grew angry again and tore another fender off the car; next time he tore off the top.

Judge Rosenkrans ordered McWreath to pay his wife \$15 a week temporary alimony and leave her car alone.
